

in ophthalmic and aural practice. An entire wing of the Hospital recently built, is appropriated specially to ophthalmic, ear, and throat cases.

ZOOLOGY AND MEDICAL PSYCHOLOGY.

A course on Zoology will also be delivered if required, as well as one on Medical Psychology, for the special benefit of gentlemen who desire to graduate in the University of Toronto, or wherever else such courses are demanded.

MUSEUM.

A large number of specimens gathered from hospital and private practice have been collected during past years, and are used in illustrating the several lectures of the Course. A considerable number of the very finest models, from Paris, have been added to the museum, and the collection is being constantly increased from year to year.

During the late session great additions of this kind were made. Students and friends of the School may help it much, and greatly advance the interests of medical science, by contributing to the museum, as many have already done, any interesting specimens they may meet with, in practice.

MATRICULATION.

Students are advised, before entering upon their medical studies, to pass the Matriculation Examinations of the Medical Council of Ontario, which is accepted by Trinity Medical School, and by the University of Trinity College. This is the more important, as the Medical Council dates the period of study, in every instance, from the time the student is registered on their official list, as a matriculated medical student.

The University of Trinity College, the University of Toronto, and Trinity Medical School, while they do not insist upon the matriculation examination being passed before attendance on medical lectures has begun, do not permit non-matriculated students to go up for examination. The Medical Council of Ontario requires that every one desirous of being registered as a matriculated student on their register, shall present to the Registrar of the Council the official certificate of having passed the HIGH SCHOOL INTERMEDIATE EXAMINATION, WITH LATIN INCLUDED.

Graduates in Arts, or students who have matriculated in Arts in any University in Her Majesty's dominions, are not required to pass any matriculation examination, but are entitled to register, on payment to the Council of the usual fee, \$20.

Students who may previously have passed the HIGH SCHOOL INTERMEDIATE, WITHOUT THE LATIN, can complete the required examination by going up to a subsequent Intermediate examination, for the LATIN only. But the names of such students cannot be entered on the Medical Council's Register *till the Latin has been passed.*
