WESTERN CANADA FARMERS WERE NEVER SO PROSPEROUS

Traffic Manager Hinton of G. T. P.
Looks for Large Influx of Settlers
From U. S. A. After War

Montreal, Oct. 30.—"All indications show that the volume of immigration into Canada from the United States at the close of the war will be remarkably large," said W. P. Hinton, traffic manager of the Grand Trunk Pacific Railway here. Mr. Hinton reports a very gratifying movement of settlers into western Canada during the last summer. These settlers have been possessed of considerable means and equipped with the latest of farming machinery. They were doubtless attracted by the lower prices of farm lands, which generally prevailed, and by the certainty that even if one crop can be secured, equal to the general yield of last year, the entire purchase price of the land will be repaid.

"Western Canada," said Mr. Hinton, "is on the eve of tremendous development and prosperity. Splendid prices have been obtained for the grain. The crop movement was deferred by fully a month, but October weather has been extremely favorable for threshing and shipping, and the grain is now moving freely and this will further stimulate trade."

"The country districts, at no time within the last year, have been able to secure their full supplies, as it seems quite impossible for eastern manufacturers to keep the demand supplied promptly. Farmers are exceedingly prosperous; their purchasing power is never so great, and perhaps a striking illustration of this fact is that approximately \$2,000,000 more than any other year has been expended by the rural population in the purchase of automobiles. In fact the automobile seems to have become a farm necessity, and even if we are disposed to consider it an extravagance, certainly adds to the joy of living in the agricultural districts of Canada."

"If we had the 150,000 men that we have sent to the front with us again it would take some speeding up of eastern manufacturers to furnish even the necessities of life in the west."

Killing the Calves

All sorts of excuses are offered for the high price of beef, the most plausible being the alleged demand for veal—"the killing of calves which should be allowed to grow into regular beef." You cannot have beef if you eat it as "veal," but you can have **Shredded Wheat Biscuit** which contains more real nutriment than beef and costs much less. Shredded wheat biscuit is the whole wheat steam-cooked, shredded and baked. Make it your "meat" for ten days and see how much better you feel. CAN SUE CANADIAN FOUNDRY.

Robert Dollar Co. Wins Important Point in \$1,250,000 Action.

(New York Times.)

The Robert Dollar Company, which is the holder of assigned claims for commissions aggregating \$1,250,000 against the Canadian Car and Foundry Company, Ltd., on contracts with the Russian government for shipyard, won an important point yesterday in its suit in the supreme court to compel the foundry company to pay the commissions. An answer in the suit has been filed by the agency of the Canadian Car and Foundry Company, Ltd., a separate organization, alleging that it is the party at interest and that the complaint asserts no valid claim against it.

Justice Greenbaum rejected the answer yesterday, and held that the agreement used upon was sufficient indication that the persons who assigned their claims to the plaintiff were entitled to a share of the cash and notes paid by the Russian government for shipyard and that a lien was created which can be enforced against any party into whose hands the money may come.

AUSTRIAN PREMIER IS CHOOSING MEN ACCEPTABLE TO TISZA.

Vienna, via London, Oct. 29.—Austria's new premier, Dr. Von Koerber, this afternoon submitted to Emperor Francis a list of the new cabinet, the Stuerzgh cabinet having in the course of the day submitted their resignations.

Who the members of the new cabinet will be is still unknown, but the impression is held here that the ministry will be composed entirely of men acceptable both to Dr. Von Koerber and Count Tisza, the Hungarian premier, with whom Dr. Von Koerber consulted yesterday on the subject.

"There is nothing that women cannot do as well as men."

Man at Desk—"Why do you claim a trombone player is less of a bore than a pianist?"

"Please, sir, father wants to know if it is true that there is such a thing as a tobacco trust?" "Yes, my lad, there is," replied the man. "Well, father would like to be trusted with two ounces."
