The incident in addition to showing the tightened conditions respecting entry of non-residents into the United States, also shows the demand for woodmen, it being said that \$75 a month had been guaranteed to some of the members of the party with the hope that they might be able to make \$4 per day.

**AT THE Y. M. C. I.**  
Things are beginning to hum around the Y. M. C. I. and preparations for the biggest winter season in sport have already been well begun. With the erection of a suitable hockey rink in the city, the Institute has decided to add hockey to its list of athletics and a team is now being got together with the prospect of entering it in the city league.  
At least three—possibly four—of the boys of the Institute will couple in the coming boxing championships. They are shaping up well and should be able to give a good account of themselves in their respective classes.
