The Committee, in presenting their report for the year 1894, are not in a position to give as encouraging a statement as under other circumstances they would have been able to give.

The aggregate amount received by the Association was \$696.27.

When everything is taken into account, we have, after all, great reason for thankfulness as to the amount raised.

The Committee wish to say that they attribute all the success of the Association, under the Divine blessing, to the lady collectors, one and all of whom have done all they could during the year in their monthly rounds among the congregation.

The work of the collector is one of peculiar delicacy. May we bespeak for them, in the year upon which we have entered, an open door and a cordial reception?

In conclusion, the Committee earnestly pray that a period of business prosperity may soon set in, and that the cause of missions may share in the good times consequent upon it. May we all take as our motto
1 Cor. 16 : 2.

J. TURNBULL,
Secretary-Treasurer.
