#### Dr. Denton's Original Hygienic Knit Sleeping Garments for Children

These garments are made of the Dr. Denton, Elastic Knit Merino, undyed fabric, spun and knit by exclusive and patented process. This fabric contains a small percentage of wool, just enough to

make it carry off the perspiration of the body and to avoid the clammy effect common to all garments made exclusively of cotton. The wool is cleaned and carded with infinite care and so thorough-

mixed that every thread has its exact proportion. The knit fabric is washed and shrunk before cutting.

These garments positively will not scratch or shrink. They open in the back in sizes 0 to 5 inclusive, as is most convenient for small children.

Made in eleven sizes for children from less than one year up to and including ten years of age.

This is the lowest priced garment we make, the prices running from 50¢ to \$1.00 according to size, but it is a strong, serviceable and nicely finished garment, easy to put on or off and giving complete

#### Ladies' Fine Shoes For Fall
