### REFUGEES TELL OF MASSACRE AT WU CHANG

#### The Revolutionary Agents at Shanghai Issue an Appeal for Assistance

Shanghai, Oct. 19.—Six packed steamers arrived here from Hankow today carrying refugees. The steamers were occupied exclusively by foreign passengers who were given free accommodation at the direction of the consuls in Hankow. The ship was so crowded that many of the passengers slept on the floors of the hold. Most of the foreigners were Russians who were employed in the tea factories, and Belgian iron-workers, employed in the steel works, the Hanyang arsenal and on the Pekin-Hankow railway.

The refugees declare that the whole Yangtze territory from Hankow to Shanghai is in the hands of the rebels with the possible exception of one or two of the larger cities to which provincial officials have retired with their available troops. ## COUNSEL WRANGLE OVER TALESMAN

### LITTLE PROGRESS IN M'NAMARA MURDER CASE

#### Attorneys Await Ruling of the Judge on Important Point Regarding Jurors

Los Angeles, Cal., Oct. 19.—Edward Robinson, a talker, who says he is opposed to labor unions and believes that the Los Angeles Times building was blown up by dynamite, underwent an extensive examination today in the James E. McNamara murder trial at the hands of Attorney Davis, who was seeking basis for challenge for cause. The examination, stubbornly conducted by District Attorney John D. Fredericks, brought many rulings from Judge Bordwell, but counsel and spectators alike centered their interest in the court's expected decision in the big issue as to whether a talker may be sworn in as a juror.

## PREPARING DETAILS OF THE CENSUS

### FOUR REGIMENTS MAY JOIN REBELS

#### ADDITIONAL BULLETINS TO BE ISSUED IN NOVEMBER

#### OVER 20,000 TROOPS SENT TO HANKOW

Ottawa, Oct. 19.—It is not likely that there will be any further announcements as to details of Canada's census until some time in November. The most important bulletins still to be issued are those which will deal with the population by electoral division, nationality and religion of the Canadian people. These figures, when completed, will be submitted to Hon. Martin Burrell before they are made public, and Mr. Burrell will be in the west for a few weeks there will necessarily be some delay.

On a percentage basis the increase in population is satisfactory, the betterment in ten years being 22 per cent. The biggest percentage increase ever reached by the United States was 24 per cent. Alberta gained 41 per cent, Quebec 21 per cent, Ontario 15 per cent, New Brunswick 6 per cent, Nova Scotia one-half per cent, Prince Edward Island showing a falling off of 9 per cent.

During the decade, 1,705,375 immigrants arrived in Canada, which, with the natural increase should have made the population about 8,000,000. The only explanation of the disappointment contained in the actual figures is that the exodus from Canada is much larger than estimated. Lack of machinery with which to count the people leaving the Dominion accounts for miscalculation which has been made. It is probable that the census will be taken in the future to have the outward flow recorded.
