

NICE DISTINCTIONS.

Mr. Bowser in Burrard district refuses to endorse the Tupper coercion policy, and is at once read out of the party, being adjudged by Col. Prior as unfit to be a government candidate.

"A RECREANT CANADIAN."

Sir Charles Tupper has been denounced from one end of the Dominion to the other as a man totally unfit to lead any party, and it is a matter worthy of note that the "prince of political crackmen" has received his most stinging castigations from Conservatives.

The Toronto Star, a Conservative paper, in a recent issue says: "Sir Charles Tupper is a false Protestant, a recreant Canadian, a corrupt politician, a man who is willing to make any promise, endorse any crooked proposition, in order to obtain power."

EQUAL TO THE OCCASION.

The first of the "great stretchers" speeches during his present "promise tour" was, as is well known, delivered in Winnipeg. He, of course, as had been expected, promised to have the Hudson's Bay railway at once constructed and assured the electors that he would aid every conceivable project and scheme that they had ever thought of or hoped for.

A PUERILE EFFORT.

Col. Prior's address to the council of the board of trade yesterday involved a very poor compliment to the intelligence of the members of that body. He besought them to believe that everything needful had been provided for this province in the estimates for the coming year, which the wicked opposition had not allowed to be brought down.

MANUFACTURERS NOT AFRAID.

Tory shouters all over the Dominion in an effort to retain even a fragment of the support of the Canadian people, howl and howl and howl, "if the Liberals assume power the manufacturing industries of the country will be ruined and the country will go to the dogs!"

held in Toronto the other day, Mr. George Bertram, a leading manufacturer, spoke as follows on the tariff:

The Liberal party should be proud also of the united policy with which they went to the country. They were on the tariff issue. By force of circumstances and by reason of the extravagant expenditure of the Conservative government it was no longer possible to get to the 17 1/2 per cent. tariff of Mackenzie's time.

A WILDCAT SCHEME.

With the intention, and none other, of bribing the electors of Winnipeg, Sir Charles Tupper said "he could see the Hudson's Bay railway was rapidly becoming a necessity."

THE MANDEMENT.

An Ottawa correspondent says: "The general topic of conversation around the capital to-day is the mandement read in the Ottawa Catholic churches yesterday, this city being included in the ecclesiastical province of Quebec."

ANOTHER MANUFACTURER.

Mr. J. K. Ward of Montreal has no fear of his large manufacturing interests being injured by the Liberals if they come to power and put in force their revenue tariff policy.

A HOUSE DIVIDED.

There is so far no prospect of tranquility being restored in the Burrard Conservative camp. The other evening a mass meeting of the party was held in Vancouver, at which Mr. Cowan was formally approved as the candidate.

TRAITOROUS ACTIONS.

One would almost be inclined to believe that it was Sir Charles Tupper and not the late lamented P. T. Barnum who gave utterance to that famous saying, "the people like to be humbugged," if one might judge by the methods adopted by the "Great Stretcher" on his present "promise tour" throughout the country.

member for the district of Burrard." The Conservatives of Burrard will shortly realize the truth of the saying "And if a house be divided against itself, that house cannot stand."

WONDERFUL SPECTACLE.

A Montreal Witness reporter in conversation with Sir Charles Tupper put the following question: "May I ask you specifically, Sir Charles, whether it is your intention, if you are returned to power, to reintroduce and carry through the remedial bill?"

TRADING AND LABOR CO.

Montreal, May 23.—Here that Mr. Laurier's nomination in the three last tests of the effect of Bismarck's policy, under the name of the Trades and Labor Co., was a success.

HERE'S A GOLD MINE.

Pieces of Virgin Coat as Large as a Hen's Egg Discovered in the Boulder Mine.

PEOPLE OF SOUTH AUSTRALIA DECLARE EMPHATICALLY AGAINST SEPARATE SCHOOLS.

Wonderful discoveries of gold continue to be made in Western Australia. The Great Boulder mine, at Kalbarrie, always considered very rich, has been further developed with wonderful results.

SOLID FOR LAURIER.

The Electeur says that of the 23 constituencies in Quebec district, it hardly seems one that Mr. Laurier is likely to lose. It had doubt, it says, about Megantic, but the address of Mr. Smith, the manager of the Thetford mines, leaves the result there no longer uncertain.

CONSERVATIVE LOGIC.

The Gazette must have a very unfavorable idea of the intellectual calibre of its readers when it gravely tells them, as it did Monday, that the "severe trade depression" from which Canada suffered between 1876 and 1879 was caused by the fact that during that period the Liberals were in office in Ottawa.

LAW INTELLIGENCE.

The trial of King and Carmody vs. Earle and Johnstone is being continued today. The evidence for the defendants was to the effect that the defendants had authorized both Mr. Pooley and Mr. Tilton to sell the Hught & McIntyre timber limits for them at a settled commission, but defendants denied that they had offered plaintiffs any commission.

HE WAS DURE.

Charles T. Lennah, secretary of the San Francisco, Cal., branch of the union at the trial of W. J. Bower, who had offered to put the time of the trial at Pawkobek, but offered to put the time of the trial at Pawkobek, but offered to put the time of the trial at Pawkobek.
