

FARMERS, PLEASE CONSIDER THIS.—The Perry Davis PAIN KILLER acts with wonderful rapidity and never fails, when taken at the commencement of an attack, to cure Cholera, Cholera Morbus, as well as all summer complaints of a similar nature.

For Sudden Colds, Sore Throat, etc., a tablespoonful of Pain Killer taken at the beginning of an attack will prove an almost never-failing cure, and save much suffering.

For Toothache, Burns, Scalds, Cuts, Bruises, etc., the Pain Killer will be found a willing physician, ready and able to relieve your suffering without delay, and at a very insignificant cost.

For Colic, Cramps and Dysentery in horses, the Pain Killer has no equal, and it has never been known to fail to effect a cure in a single instance. It is used in some of the largest livery stables and horse infirmaries in the world. To resuscitate young lambs or other stock, chilled and dying from cold, a little Pain Killer mixed with milk will restore them to health very quickly.

The Pain Killer is for sale by druggists, apothecaries, grocers and medicine dealers throughout the world.

FARMERS AND MECHANICS.—Provide yourselves with a bottle of Pain Killer at this season of the year, when summer complaints are so prevalent; it is a prompt, safe and sure cure. It may save you days of sickness, and you will find it more valuable than gold. Be sure you buy the genuine Perry Davis' Pain Killer and take no other mixture.

COBOURG, Ont., March 3, 1880.

I have been selling Perry Davis' Pain Killer for the past six years, and have much pleasure in stating that its sale in that time has been larger than any other patent medicine that I have on my shelves, and in those years I have never heard a customer say aught but words of the highest praise in its favor. It is an article that seems to have combined in it all that goes to make a *first-class family medicine*, and as long as I have a house and store, Perry Davis' Pain Killer will be found in both.

Yours, etc.,

J. E. KENNEDY.

SUBSTITUTES.—The public are cautioned against a custom which is growing quite common among a certain class of dealers, and which is this:—When asked for a bottle of Pain Killer, they suddenly discover that they are “sold out,” “but have another article just as good, if not better,” which they will supply at the same price. The object of this deception is transparent. These substitutes are made up to sell on the great reputation of the Pain Killer, and being compounded of the vilest and cheapest drugs, are bought at about half what he pays for the genuine Pain Killer, which enables him, therefore, to realize a few cents more profit per bottle upon the imitation article than he can upon the genuine.

Beware of Counterfeits and Imitations.

Price 25 cents per bottle.
