ARMENIANS ARE BEING MASSACRED AT MERZURA

Populace Enraged by the Murder of Moslem—Apply to Consuls for Help—New Turkish Administration Makes Appointment

CONSTANTINOPLE, April 15.—A massacre of Armenians is in progress today at Merzura, a seaport of Asia Minor on the Mediterranean. Enraged at the murder of two Moslems by an Armenian and the fact that the assassin was not apprehended, the Mohammedan population of Merzura, which counts a total of 10,000 inhabitants, took the law into its own hands and attacked the mission quarters. The Christian communities of Merzura are appealing to the consuls here for help.

SEAMAN LOST IN BAY OF FUNDY Washed Overboard from S. S. Regulus

A Graphic Story of the Perils of the Deep Sea—Reported at Newfoundland. The Daily News of St. John's, Nfld., contains the following story of a drowning which occurred in the Bay of Fundy: "The S. S. Regulus, Captain Wakeham, arrived in port yesterday morning from Philadelphia. She left there on Monday, April 1st, and fine weather was met with for the first few days out. On Sunday, 4th inst., the weather became very stormy, so that only about 100 miles a day could be made. The steamer was constantly shipping big seas, and the steamer was foundering in the heavy tide running. On Sunday night a gloom was cast over all on board by the sad drowning of one of the crew named Joseph Murphy. The watch was called, and at twelve o'clock Murphy came on deck, and walked along on the lee side, closely followed by companion. The steamer was rolling heavily, and now and again a heavy sea would break over her. Murphy's companion saw a big comber coming, and jumped back to avoid it. When it had passed, he again made his way on deck, but did not see Murphy, whom he thought was at the wheel. Just then his attention was attracted from the matter by a small light which had been completed. It was discovered that Murphy was not around. A search was made, but nothing could be elicited, further than the facts stated by his companion, as already detailed. Murphy was heard and if one were made, it would hardly have been heard above the roar of the storm. Murphy was heard and if one were made, it would hardly have been heard above the roar of the storm. Murphy was heard and if one were made, it would hardly have been heard above the roar of the storm.

DEFENCE AGAINST AERIAL WARSHIPS Search Being Made for an Effective Weapon

Smaller Machines Will Rise Above the Larger Ones and Destroy With Impunity. LONDON, April 12.—A problem at present exercising the minds of military and naval experts is that of finding an effective weapon of defence against aerial warships. In Germany the work has been under consideration for many months and despatches have already described the new howitzer invented by Messrs. Krupp solely for use against an aerial foe. Recognizing the fact that a rapidly moving airship could easily get beyond the range of this gun the German authorities have had designed an armored automobile fitted with a special gun which can give chase to a dirigible and shell it on the wing. This possibility of this airship destroyer is to be tested against the Zeppelin I. at the manoeuvres in Wurttemberg in the autumn. The automobile is fitted with a small quick firing gun of long range so mounted that it can fire at a target almost directly overhead. Attached to the gun is a bombproof shield which revolves with the piece. The car has a speed of forty miles an hour. Following the example set by Germany, the British military authorities carry out experiments on Salisbury Plains, with the object of testing the power of modern artillery in resisting an aerial invasion. They will use the new 15-pounder shell against captive balloons. Many doubts are expressed with regard to the value of artillery in resisting an aerial warship. When used against an airship covering over a position comparatively near the earth it is believed that it will prove effective, but an airship speeding along at a great height would offer a target so small that a hit would be almost an impossibility. Aeronautical experts are of the opinion that the best answer to the Zeppelin will be found in the aeroplane. It is pointed out that the aeroplane is not limited in the height it may attain by the density of the air to the same extent as the airship and there should be no difficulty in fitting a machine rising high above a Zeppelin and destroying it with impunity and ease. Above the two cars of the Zeppelin I, there spreads half an acre of gas bags. What is going on about the gas bags the aviators in the cars cannot see nor can they defend themselves against attack from that quarter. It is estimated that 20 aeroplanes can be built at the cost of one Zeppelin.

THIRTY TWO KILLED IN RIOT IN MEXICAN MINING TOWN

UNKNOWN MAN WAS KILLED BY I.C.R. TRAIN Horribly Mangled Body Found by Trainmen

Only Clue to Identity is Note Book Bearing Name of Clairie Howes—Not Known in St. John. MONTREAL, N. B., April 15.—The body of an unknown man was found this morning about 6.30 by the train crew of freight train No. 24, bound for Truro, between Falmace Junction and Calhoun's Mills. The man had evidently been struck by the early morning express. The body was badly mangled, and was in a horrible condition, the head being cut considerably, while other parts of the body showed he had been killed instantly. The left arm was partly cut off. The name of the man is unknown, although a notebook with the name "Clairie Howes, St. Patrick Boys' School, City," was found in the pocket, and wherever such school should be information concerning the unfortunate man could be obtained. The body was taken to Calhoun's and an inquest in to the death will be held there tomorrow by Coroner Chapman, of Dorchester, who has already been notified.

Trouble Arose Over Religious Procession—Town Terrored by Drunken Orgy—Priest Who Led Rioters Attempted Suicide

MEXICO CITY, Mexico, April 14.—According to a statement received today the rioting which occurred at Valaderna, a mining camp in Coahuila last Saturday was more serious than at first reported, 32 men being killed and many injured. The trouble was instigated by Father Ramon Valenzuela, parish priest, it is asserted, who lies in a hospital hovering between life and death. Fourteen of the rioters were executed by the government troops and many were imprisoned. Many Americans reside in Valaderna, as the camp is controlled by American capital. The leaders of the mob, which was well organized, avoided attacking Americans or destroying American property. The fighting occurred when the Jefe Político of the town, an officer corresponding to an American mayor, attempted to stop a religious procession headed by the village priests, the law of Mexico forbidding such parades. A thousand parishioners followed the priest, wishing to witness the annual burning of Judas, and when the orders of the mayor became known, the mob stoned and burned the house of the mayor, who, with his wife, escaped and sought the protection of an American colony. The rioters then stormed a Chinese hotel, looting it of all liquors and foods and terrorizing the neighborhood during the night in their drunken orgy. The police force fired on the mob, many members of which were well armed. The officers were forced to retreat, leaving six of their number dead in the main street. Later troops arrived on a special train and a short fight between troops and rioters ensued, bringing the total deaths to thirty-two, with a number of injured. Father Valenzuela was arrested. One of his followers smuggled a revolver into his cell and the priest stabbed himself six times in a vain attempt to commit suicide. He is now in the prison hospital. Quiet is restored.

CASTRO'S MOVEMENTS ARE STILL UNCERTAIN

Will Not be Allowed to Land at Colon for Fear He Might Escape to Venezuela. COLON, April 15.—Ex-President Castro's wife and sister and other members of the party have arrived here on the steamer Guadeloupe. They will not disembark until the fall of the year. They will not be allowed to land for fear they take passage for Venezuela. The Guadeloupe will sail for Port Limon, Costa Rica, on Friday, where some of Castro's relatives recently landed. The Guadeloupe is expected to return to the port of Limon on Saturday. It is thought likely that they will go to Port Limon if they did not decide upon returning to Europe.

GRAFT CHARGED IN MEDICAL WORLD

Now German Specialists Secured Patients—Bribed Hotel Porters. BERLIN, April 14.—The medical world of Germany is excited over charges of graft in its most important quarter—the famous Berlin specialist fraternity. Prof. Senator, the venerable president of the Berlin Medical Society, is charged with bribing hotel porters and others to direct wealthy patients, principally foreigners, to his clinics. Other specialists have also been mentioned in the affair. An investigation of the charges against the Berlin Medical Society, Prof. Senator resigned the presidential office pending an investigation of the charges against him by a court of honor. He declares that he has never been guilty of bestowing gratuities, except upon the head of a certain "Rusden Institute for Medical Consultations," who was accustomed to act as interpreter for Russian patients. To some hotel porters who begged him for commissions he gave money as the simplest way of getting rid of their importunities.

SACKVILLE STUDENTS WIN VALUABLE SCHOLARSHIPS

At Harvard University—All Three in Mathematical Department—Wedding of Popular Couple. SACKVILLE, N. B., April 15.—To win three valuable scholarships in the mathematical department of Harvard University in one year is the record of three Allisonians, according to word received from Cambridge. The three fortunate young men being Lloyd Dixon, M. A., Sackville; Roy Fullerton, B. A., Point de Bute, and Albert Oulton, '09, Lorneville, N. S. Dixon has been awarded the Thayer scholarship of the value of \$800 and each of the others have been awarded university scholarships valued at \$100. Dixon has been singularly honored in that he held the scholarship last year, which has just been awarded to him. Fullerton and Oulton are now studying at Harvard, while Oulton will receive the degree of arts from Mount Allison in June. Oulton is the first Mount Allison student to be awarded the mathematical scholarship at the great United States university while still an undergraduate. Bishop Richardson will visit Sackville on Sunday and will administer the rite of confirmation to a number of candidates in St. Paul's church. At the home of Mrs. Frank Townsend, Jollicure, last evening, the marriage took place of Mrs. Townsend's daughter, Miss Daisy, to Ambrose Wheeler, of Newfoundland. The ceremony was performed by Rev. Thomas Hicks. The bride, who was gowned in white organdie with bridal veil and carried a handsome bouquet of chrysanthemums, was attended by her sister, Miss Ella Townsend. The groomsmen were John Galloway, Ambrose and Mrs. Wheeler will reside in Newfoundland.

GOTCH ALTOGETHER OUTCLASSED MAHMOUD

Later Admits Opponent's Superiority—Dispute Among Sports Ends in Murder. CHICAGO, April 15.—Commenting on his easy overthrow of Yusuf Mahmoud, the highly heeled Turkish fighter, at last night's contest for the championship, Frank Gotch says: "I had him beaten when I laid my hands on him, he is a strong fellow, but I am stronger and know more about wrestling than he does. I have made no plans for the future. "I did not know Gotch was so good," said Mahmoud. "I beat all the men that Gotch did and I thought I had a chance. He is the best man I ever met. I do not know any one who can beat him. I am going to my home in Bulgaria and take a rest. I may return next year and try to get another match. At present he is a better man than I am." E. D. Smith, referee, made the following statement: "Gotch simply outclassed Mahmoud. I never saw him do such grand work." MARSHALLTOWN, Ia., April 15.—In the presence of 300 men assembled at a billiard hall to hear returns from the Gotch-Mahmoud match last night "Doc" Seibert became involved in a fight with Harry Laessele, Laessele shot Seibert three times, Seibert died on the way to the hospital.

FELL ON BUZZ SAW; MAY LOSE HIS ARM

SUSSEX, N. B., April 14.—Horatio Arnold, one of the best known and most prosperous farmers hereabouts, was very badly injured this afternoon at his home. He was working with a circular saw, cutting wood, when he slipped and fell on the rapidly revolving saw. One arm was terribly lacerated from the wrist to the shoulder. Arteries, cords and bones were severed and the victim bled profusely. Dr. Burnett dressed the wound and hoped to save the arm. Mr. Arnold is very weak after his frightful experience.

AUTOMOBILE OWNERS WILL MAKE A STRONG PROTEST

Against Proposed Legislation Excluding Their Cars from the Public Highways on Market Days. Local automobile owners do not feel kindly toward the enactment of the bill to prevent the running of the machines on market days. The bill which will shortly be introduced in the local house has been drafted at the desire of the farmers in various sections of the province. It is stated that the noise of the machines which causes the horses to bolt and in several instances accidents result. Saturday is the chief day on which the farmers desire to have the machines excluded from the roads, as most of the produce is brought to market then. A prominent automobile owner, discussing the matter with a representative of the Sta. this morning, said that he had written to Frederickton for information regarding the bill. Several members are known to be opposed to its enactment and it is not probable that the bill will become law at least for some time yet. The automobile owners contend that Saturday is one of the best days to enjoy a ride. In their opinion the bill is unreasonable and may do much to hamper the introduction of new touring cars here. If passed the bill will effect the entire province, prohibiting the running from riding on any of the roads. In the past, there has not been a fatality in the province as the result of an automobile "smash-up."

A RECORD GAME EARLY IN THE SEASON

CHICAGO, April 15.—Orville Page, the Maroon pitcher, set an early season record yesterday at Marshall Field by twirling a no hit, no run game, against DePaul University team and incidentally winning the contest four to nothing. Page struck out 11 men.

LAST OF CONFEDERATE GENERALS IS DEAD

COLUMBIA, S. C., April 15.—General Matthew C. Butler, of Edsfield, former U. S. Senator and one of the last of the confederate cavalry generals, died last night at a local infirmary, aged 72. His death was the result of a complication of diseases induced by an old wound.

PASSENGERS STRUGGLED THROUGH IMMENSE DRIFTS

From Snow Bound Train—Seven Preferred to Await Relief Train. DENVER, Colo., April 15.—All but seven of the seventy-five passengers on the snowbound Denver North-western and Pacific train which has been stalled for several days at Corona, the point at which the road crosses the Continental Divide, have been safely landed at Sulphur Springs after they had walked two miles through huge drifts to a relief train which had penetrated the banks of snow at that point. The seven left preferred to remain in the snow shed until the relief train proceeding the relief train could make another effort to clear the tracks.

THE BANK OF ENGLAND

LONDON, Apr 15.—The weekly statement of the Bank of England about the following changes:—Total reserve increase £21,000; circulation decreased £312,000; bullion decreased £491,500; other securities decreased £1,718,000; other deposits decreased £1,715,000; public deposits decreased £340,000; notes reserve increased £59,000; Government securities unchanged. The proportion of the bank's reserves to liabilities this week is 35.6 per cent.; last week it was 47.22 per cent. The rate of discount if the Bank of England remained unchanged today at 5 1/2 per cent.
