FIXING BY-ELECTIONS.

The dates have been fixed for two of the three federal by-elections made necessary in Ontario by the death of two members of parliament and the promotion of another to a position under the Ontario provincial government Polling day in East Elgin is Oct 4th, and in North Renfrew on October 9th. The date for the North Bruce elec-

But the public interest has stances enough are on record against both parties where constituencies have been disfranchised for long terms because the existing government dare not face a contest, to afford good ground for the contention that the power of fixing the dates of by-elections should not rest with the government, or with parliament. While the election law is under revision, as it probably will be during the court during the coming session, it is to be hoped that fair consideration will be given to a proposition to make by-elec-tions automatic, to fix a limited period after the creation of the vacancy for the issuing of the writs and the counting of the ballots. This would guaran-tee fair play between the parties and would ensure every constituency against unjust deprivation of its representation in parliament.

While there is no news for the general public in this statement, it comes with timely force from a man so well informed as Mr. Tarte. His is no hearsay talk. He has been behind the scenes on both sides and speaks from first hand himself. And in so doing he brands as hypocrital cant all these holier-than-thou effusions which have filled the columns of Opposition newspapers and the mouths of Opposition prators ever since Mr. Fielding's elec n was voided on a technicality after inquisition through which probably not one member of the house could

As a matter of fact, and of commo knowledge, money is contributed to both parties in every election by corporations or individuals interested in success of one or the other; and some of this money is spent illegally by both parties and will be so spent until the election law is reformed and the responsibility for its enforcement is taken out of the hands of the politi-cians and placed with some capable and independent body. And until this

In him the bureaucracy loses its strongest and most terrible weapon. Trepoff was a perfect type of the dussian autocrat. "The iron man," hey called him, and he fairly earned the title. Haughty, imperious, ruthless, absolutely indifferent to the masses, except as a target, he was nevertheless straightforward in his dealings and aightforward in his dealings and ndidly courageous. No man in sia has lived in more danger than for the past two years, but he never avered. But for him the government might have perished in the upsing that began with the great neral strike, after Witte's temporizing policy last year had failed. With ing policy last year had failed. With sword, and knout, and chains Trepoff, as the Czar's chief adviser and practically dictator, beat the people into cowed submission and has kept them there since by the same means. Whether or not the Czar can find another as faithful and efficient an in-strument for this terrible work does not matter much; for this method cannot accomplish anything permanent, no matter whose hands administer it. Sooner or later, if the pressure is kept up, the people will burst their bonds, and then not even a hundred thousand. Trepoffs can save the Czar and his

RELIGION AND THE U. N. B.

The New Freeman still contends that the denomination which it represents in New Brunswick journalism is not fairly treated by the authorities who control the professoriate and the policy of the provincial university. "Catholics are not appointed to professorships in the university." it says. There is no ground for complaint in that uness the New Freeman knows that Protestants have been appointed to vacancies on the staff in preference to available Catholics who were better or equally well qualified. We do not believe that this has been the case in rerent years; certainly it has not been so in the late appointment of a chan-cellor and professor of mathematics.

A man's religion, so long as he is a fident does not have any influence ipon those whose duty it is to see that the educational system of this province. WARSHIPS NOW

United States Will Take a Hand in Cuban Affairs

Will at Least Attempt to Bring Order Out of the Present Troubled State of Affairs

HAVANA, Sept. 15 .- Three America. warships are the most imposing and interesting objects in Havana Bay toht. Their presence, undesignedly pointedly, is typical of the fact that it is the intention of the United States to take a hand in Cuban affairs to the extent at least of bringing order out of he present chaotic conditions.

The cruiser Des Moines arrived this morning and the auxilliary cruiser Dixle, with 250 marines on board and ready at a moment's notice to land field command of the squadron.

If Commander Colwell's mission here was in the nature of making negotia-tions, he could hardly be more busy. He is receiving delegates representing the insurgents and even some of the insurgents themselves, who are anxious through him to negotiate peace of some kind. He held consultations with the emmissaries, but declines to do otherwise than recommend that they go to their government. This sugges-tion bore fruit this afternoon to the extent that there was some talk between the emissaries and governm Nunaz which may lead to something more definite. But while these tre assuring Commander Colwell that hostilities have been held up on account of their endeavors to negotiate for peace, the fact is that fighting pro-ceeded outside Havana both Friday

vening and this afternoon. While a cessation of hostilities pend-ing the arrival of Secretary of War Taft and Acting Secretary of State Bacon would be appreciated by the government and the public, there is no certain evidence that understanding has been reached. The great topic of conversation, to the exclusion of everything else, was President Roosevelt's letter regarding the situation. President Palma clined to be interviewed on the sub-
