Watchmaking in Switzerland.

From the Swiss Times of May 30.b.]

We have already drawn attention to the annual meeting of the Society of Arts hold on the 25rd current, under the presidentship of M. Th. de Saus ure, and are now able to furnish some further details.

Professor Soret, in delivering a most interesting report, ussed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Gene vese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom the award the paim of excellency unanimously decided in favor of Messra. J. M. Badollet & Co. This firm having carried off the sole prize by exhibiting a chronometer which fulfilled in the highest degree every condition required, crowned their first success by gaining honorable mention for two other chronometers. The allusion to this triple honor was received with enthusiastic applause, and Professor Humbert, President of the Fine Arts Sction, closed the meeting with a happy and humorous dissertation upon subjects connected with this department. [From the Swiss Times of May 30.h.]

An assortment of Gold and Silver Watches, of different grades, from the eminent manufac-turers above referred to, always kept in stock by PAGE BROTHERS, A zents for Messis. J. M. Badollet & Co., Watch and Chronometer Manufacturers, Geneva, swit-terland.
