**CAMPUS SURVEILLANCE HISTORY** As an important means to reach former RCMP members, the *Quarterly* has been asked to place the following ad. We encourage the RCMP Veterans' Association to pass this message along to their membership as well. The undersigned is currently working on a balanced history book for the University of Toronto Press, about the RCMP Security Service's surveillance operations and other activities on the campuses of Canadian universities. If you had any involvement or knowledge of such actions, then he would very much like to interview you. In order for the book to tell the complete story, it is

essential that the voices of former members of the Force be heard.

**YOUR ANONYMITY IS GUARANTEED.**
