THURSDAY, DECEMBER 23, 1915.

It is time now to be casting about for the best material for next year's municipal councils. The position requires good men, and the electors should see to it that no others get there.

In his latest bulletin the Medical Officer of Health strongly urges the taking of all possible precautions to prevent the spread of measles. The disease is one against which parents and the public authorities should do everything they can to protect the children. Dr. Hastings tells us not only that the mortality from measles is four times as great as from scarlet fever, but also that the number of deaths traceable to measles, though directly attributed to other diseases, is far greater than those immediately resulting from it. He says that no other known agency does so much to destroy the natural immunity to germ diseases generally. In a large proportion of the deaths from pneumonia it is found that the patient had previously suffered from an attack of measles.

CHEAPEST OF ALL MEDICINES.—Considering the curative qualities of Dr. Thomas' Electric Oil it is the cheapest medicine now offered to the public. The dose required in any ailment is small and a bottle contains many doses. If it were valued at the benefit it confers it could not be purchased for many times the price asked for it, but increased consumption has simplified and cheapened its manufacture.

At Wardsville Wm. Ellwood gallantly stopped a runaway and thereby saved from probable injury Melvin Waterworth and two children. Mr. Ellwood grabbed the bridle bit and was dragged and jammed against a telephone pole, but was not seriously injured.

## PROSPECTIVE PURCHASERS

Consider this seriously: We can get only a limited number of these cars. Many Ontario dealers have sold as high as 25 to 30 cars already since September. One Montreal dealer contracted for 500; one dealer in Detroit (and there are several) contracted for 800. In face of these facts, we would advise you to get in your order at once.

## THE CHEVROLET

is the product of W. C. Durant's fifteen years' experience as a motor builder. If you have any faith in money as a guaranty of merit, this car has a capital behind it with a present worth of approximately \$31,000,000. It was born with a silver spoon in its mouth. As cheap to run as any car on four wheels. Irreversible steering gear (sector). Two-unit lighting and starting system, just the same as \$5,000 cars. Easiest car in the market for a woman to operate. Peculiarly free from danger of skidding. Flexibility—from two to fifty-five miles per hour on high speed. Buyers are assured of prompt service. Cars here next month. Come and talk it over.
