ASKING FOR SUCCOR

From Relatives in Distant Montreal—Caught in Old Barn.

Owing to the high cost of oil, two knights of the road (railroad) did not burn the midnight substance last night, but despite the fact that they did their light under a bushel, Constable Graham found the committee of two reposing on a suitcase in an ancient barn on Rectory street early this morning.

"East is East, and West is West, and never the twain shall meet," said the post, but here was a meeting east and west. The western brotherhood of wanderers was represented by Delgado Antole Delenue of Seattle, Washington, and the eastern district by Delgado, Walter Jameson of Niagara Falls, N. Y.

For two days, they had discussed life in general, methods and means of transportation, and other great problems, including the four questions, but one said that he had a sister in Montreal, and the other declared that his parents resided in the same city. Jameson was bound for Windsor and Delenue to see the folks at home.

They were requested to spend a week at Hotel Carter and advised to use the institution's stationery in an effort to straighten out their difficulties. They promised that they would increase the amount of mail that will leave London for the Canadian metropolis this week.

PERMITS FOR MARCH STEADILY GROWING

Total of \$45,775 Reached Today—Figures for Year Are \$151,335.

With the building total for March at \$45,775 today there is not the slightest doubt that the month will more than measure up to the same period last year. Building Inspector Arthur M. Piper said today. With the total of \$105,550 for the previous two months the total for the year is now \$151,335 compared to \$117,570 at the end of March, 1920.

Permits were issued today to W. H. Davies to build a one story frame house on Battle street at a cost of \$2,500 and to G. E. Phinn to build a two story brick dwelling on Briscoe street at a cost of \$4,500.

CANADA TO

gold to Canada to be used against purchases in this country. The story received little corroboration in official circles here. In any case there was some doubt as to the real ownership of the gold, and nothing came of the proposal. That the soviet has gold in considerable quantities is fairly well known.

Even now large purchases principally of railway materials, locomotives, etc., are being made in Germany. The latter country has been able to underbid both Great Britain and the United States for the business, and is receiving Russian gold in exchange for it. Indeed as the days pass, Germany gets back to a normal manufacturing basis, trade between that country and the soviet is liable to increase.

It is taken for granted that the new trade agreement between Great Britain and the soviet will provide for extended credits to be seen. So far the Dominion is trading but little with the European continent, though trading with Germany has been open and free for some time past.

OFF THE RAILS

Because the G. T. R. officials expect that this year's Easter traffic will be exceedingly heavy, despite the fact that there will be no cheap rates, arrangements are being made to run two special trains through this division on Thursday, March 24. One of the trains will leave Toronto for Windsor, via London, at 6:45 p.m., and immediately before the regular, No. 15, No. 16, in this city for the east at 7 p.m., will be run in two sections between Windsor and Toronto. The first of these will leave Windsor on time, proceeding to Toronto via London and the Junction cut. The first section will not run into Hamilton. All trains will carry extra cars, and the through trains will be equipped with extra parlor cars.

SURCHARGE NOT YET CHARGED. Tickets to the United States are still being sold at the threatened surcharge. Although the order providing for an extra charge to cover the rate of exchange has been in effect since March 15, no instructions regarding the matter have been received by the local agents of the companies. Officials in this city, in fact, have received no indication that the surcharge has been considered other than the announcement in the press.

LIVELY DEBATE ON MOVIE QUESTION AT ST. GEORGE'S SCHOOL

Movie Supporters Too Idealistic, Say Judges in Giving Decision.

A very lively debate on the subject, "Movies do more harm than good," was staged at a meeting of the St. George's Mothers' Club, held last night in the school, the affirmative side winning the debate, although some very fine points were brought out in favor of the movies. The judges gave the decision in favor of the affirmative side because they felt that the negative side claims were too idealistic, and not true to actual conditions. Only Rumors. Rumors that the great directors of film companies were considering seriously the banning of everything in their pictures which might have an evil influence on the public mind were considered today by the members of the St. George's Mothers' Club. WARM SESSION T. AND L. TONIGHT IS PROMISED

The Actions of Ashplant and E. A. Pocock Will Be Up For Discussion.

It is expected that one of the warmest sessions ever experienced by the local Trades and Labor council will be held in the local Labor Temple this evening when an attempt will be made by several of the members to swear all diplomatic relations between the Trades and Labor council and the labor movement who deliver chiefly in politics. Whether or not these attempts will bear any fruit none of the officials would predict, when interviewed today.

The movement is the outcome of the recent controversy between Henry E. Ashplant and the Provincial House, and E. A. Pocock and Mayor E. S. Little. It was felt by several men who are leaders in the organized labor movement in this city that the actions of these men were harmful to the cause of organized labor and the labor council which is primarily an industrial body.

It is common knowledge that the fight was deeper than would appear on the surface. Just what the significance of the movement really is probably will be revealed this evening.

Last week a businessman in Windsor hunted high and low all over Windsor and Detroit to locate a perfect blue white diamond. He was willing to spend \$10,000. His perfect blue white stone was graded in 1853. The new store is 183 Dundas street, where you will eventually buy.

"Are you saying that the chef might be taught something, even if it was not cooking?"

HASTINGS INQUIRY BROUGHT TO A CLOSE; REQUEST OF DEFENCE

Counsel for Suspended Magistrate Sees No Reason to Continue Probe.

NO OBJECTIONS RAISED

Commissioner's Interpretation of Charges Satisfies Defendant.

Cuyaga, March 15.—The Hastings inquiry came to an unexpected end this morning soon after the commissioner opened court. John Counsell, counsel for the suspended magistrate, stated that in view of the ruling made by the commissioner, there was no change in the statement of complaint, and the police magistrate, who had a good purpose could be served by continuing the defence.

Mr. Counsell, continuing, said the ruling of his honor was quite satisfactory. Although he did not agree with the decision, he was not imputed in any of the charges, and he was certain that the charges read out to the detention by Hon. Mr. Raney did impute dishonesty on the part of the magistrate, and the charge against Frank Lelior, M.P., was the most serious that could be made against a public man, that of trying to improperly influence the courts.

Three Charges Dropped. The attorney-general's department later said to drop three of the charges. The demand for an inquiry was made to give Mr. Hastings an opportunity to refute these charges. In reply, R. U. McPherson, crown counsel, said there was no objection to the charges read out to the detention by Hon. Mr. Raney did impute dishonesty on the part of the magistrate, and the charge against Frank Lelior, M.P., was the most serious that could be made against a public man, that of trying to improperly influence the courts.
