**Kingston Rising** 

From Wreckage

Kingston, Jamaica .- A person acquainted with Kingston, coming here to day, in the business section at least, would hardly re-cognize the capital and chief city of the Britthe cognize the capital and cutet city of the state of the state of a few months ago. Then her stores and shops clustered thickly from

and colds. It has been curing controls that his hands up, ready, there was seen a strip of white cloth six or from that wounded finger, with every propert that the next movement of that and hanging down would while the bandrage off alkogether; and it didn't seen right to the men looking on that he should fight in that shape and they said so. "Gall it off." they said, but the tall man didn't see it in that light in that shape and they shorter man was equally ready, and so they both advanced skirmlshing for an opening and ready to bang away at each other again, but the genore man was equally ready, and so they both advanced skirmlshing for an opening and ready to bang away at each other again, but they closed in on the fighter, and for it. They thought the fight ought to stop and now they closed in on the fighters and kept them apart, and so by unanimous acclasion of the spectators was this fight brought to an end.-N. Y. Sun. the Parade to the water front. To-Lay that section reminds one of the views of Pompeli, which for so long stood at the Green street entrance to Fairmount Park Along Harbour street, from Duke to Princess, and from the wharves to the Parish Church (it-

self in ruins), stand little but bare walls

self in fulnsy, state the burn of the self of the self

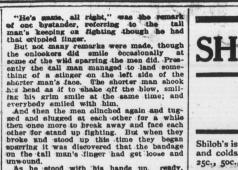

been erected and others restored. Consid-ering all, very fair progress has been made. Merchants confidently expect King street to be rebuilt within nine months. They predict, however, that the city will not fully recover from its disaster by eartiquake and sire on the memorable lith of January, for 10 years at least. The wholesale and shopping dis-tricts now centre at the Parade. The quick-ty-erected buildings are for the most part of galvanized iron, but they are cool and serve their purpose well. Bioros in the course of construction are for the most part of reinforced concrete, with steel girders. Where brick is used they are to be inclosed with wire meshing and then covered with a coating of cement. Under a new law all buildings will be erected four feet apart. Practically all the merchants have brave-ly faced the disaster, and are beginning a-new. One enterprising firm has erected a large billboard bearing these words : 'lin 25 years 3 hurricanes, 2 fires and 1 earthquake, but still going strong.'' A leading newspa-per and a citizens' committee waited upon the firm to have it removed, fearing it would injure Kingston, but their request was re-fused. American tourists, largely in the majority, openje wyness admiration in the firm's pluck, and a thriving business has resulted. Were it has cover of the series divented

firm's pluck, and a thriving business has resulted. Were it not for the seriousness of the re-cent disaster many of the signs displayed would appear ridiculous. "The Little Won-der." "We Are Bound to Rise," "We Are Anchored." "Here to Stay," are some of the sentences that greet one. A hait-tum-bled down shack bears the title of "Ico Cream Palace" and states that American five and ten cent pieces are taken in exchange. In the work of reconstruction one is im-pressed with the vast amount of burdensor's labor performed by the native women. They are employed in cleaning up debris, hod-carrying, mixing cement and performing oth-er heavy tasks, the same as one sees them in the fields, breaking stone along the roads and coaling ships.

er heavy tasks, the same as one sees them in the fields, breaking stone along the roads and coaling ships. Buildings more or less familiar to visitors here and still partially standing are the gen-aral poet office (in use), the Supreme Court and Treasury. The Government has pur-chased plots of land on both sides of King street and will concentrate all the new Col-onial offices in one section, including those already mentioned, the customs and revenue departments, the resident Magistrate's Court and the Government Savings Bank. Opposite the Parade the Jubilee Market is intact and at the foot of King street there stands the Victoria Market as before. In both hordes of natives, barefooted and bare-legged for the most part, and picturesquely garbed, still haggie, impioring 'Massa Buck-ra'' (white man) to buy their wares-Jippa Jappa hats and baskets, coils of rope, tobac-co, bundles of sugar cane, curious earthen water jars, toothsome naseberries, oranges, pineapples, sweet sops and ''guineps,'' on se pineapples, sweet sops and "guineps," on which "you can eat yourself hungry," to use

which "you can eat yourself hungry," to use a native phrase. Mingled with these are the cries of the fish-sellers, the butchers and small merch-ants, with strings of gayly-colored beads, cheap jewelry and tawdry merchandise. It one is "wise" he may quench his thirst with a water-coccanut for a p.nny, ha'-penny; otherwise it may cost him a suxpence. Across the sparkling waters, of the bay still blows the "doctor," as that refreshing breeze which springs up from 10 to 4, is called, and from the pavfilon in the rear of the ruins of the Myrtle Bank Hotel, West Indian diving boys scramble for coins, fear-less of sharks.

of the fullins of the signed bank rhotel, weat Indian diving boys scramble for coins, fear-less of sharks. At the depot hordes of porters still assure one that they are "your boy," and 'busmen iay in wait for victims and follow one about looking for. "fares." Beggars who are "starv-ing," healthy looking specimens for all, im-plore "for a penny to buy bread." At Port Royal the tops of the co-coanut trees are visible where the land sank, and in the whole town there is scarcely a build-ing plumb. The old church, built in 1722-26, with walls five feet thick, is cracked in sev-eral places, but not seriously injured. It is worthy of mention that one of the first res-try of the church was Lewis Galdy, the sole survivor of the great earthquake of 1592, when the then Port Royal sank into the sea. Fort Charles, where Nelson had his head-quarters for some time, is intad, as is the memorial erected to his memory pearing as

When our clock strikes I always dread To look, for fear it's time for bed. And when we leave our play to see It seems to smile and wink at me. My mother says, and she knows best, That children must lie down to rest. Yet our old clock stands in the hall And never goes to sleep at all.

In the city of Ottawa lives a cheerful cabman of the name of Charlie Kelly

who has been on friendly terms with Sir John Macdonald, Mr. D'Alton McCarthy and other parliamentarians of lesse degree. Charlie is a faithful son of what Mulvaney calls the "Mother Church, Mulvaney calls the "Mother Church, which is so regimental in her fittin's.' On the occasion of the baptism of a youth-ful Kelly, the reverend father asked "Hugh John," was Kelly's prompt re-

Two Kinds of Public Enemies. **ISSUE NO. 47, 1907** 

### ident Darwin P. Kingsley, of the N York Life Insurance Com in Leslie's Weekly. mpany,

A dishonest truste should be treated as a criminal. A deliberate looter of a railroad ought to be in the penitentiary. The main who makes a great industrial combination, and by means of doctored statements unloads waby means of doctored statements unloads wa-tero: etcous on a poorly-informed public, putting the proceeds in his own pocket, is a modern type of highwayman, and ought to be treated as such. But when conditions like these are shown with equal clearness, even in a period of great public exclement, that they are superficial and fugitive, when it appears that the great body of business to which they are related is sound, useful, and heavestly conducted, what shall we say of the political leader who in the name of re-form uses the situation to fashion a cunning the political leader who in the name of re-form uses the situation to fashion a cunning plea to all the baser passions of the human heart ? What offense has he committed ? What shall we say of the organ of public opiaion which deliberately mistates facts, garbies testimony, destroys reputations, and cultivates suspicion and hate which always lie near to the surface of human feeling and deliberately brings on a social tempest, in order to sell its wares ? What shall we say of a great magazine, which, profeesing to put before the world a dispassionate review of life-insurance and life-insurance compan-ies, refuses to see responsible life-insurance men, apparently from fear that the truth in possession might deprive ka article of cer-tain sensational features ?

# HANDS TERRIBLE CRACKED.

Mrs. Yellen, of Portland, says: "My hands were so sore and cracked that I could not put them near water. I seemed quite unable to get relief from anything I put on them until I tried Zam-Buk. It closed the big cracks, gave me ease and in a very short time healed

my hands completely." Zam-Buk heals all skin injuries and diseases. Of all stores and druggists at 30 cents, or from Zam-Buk Co., Toronto, for price, 3 boxes for \$1.25.

Italians Swarming to anertica. Italy is losing population by emigra-tion at the rate of nearly a million—or three per cent. of the total number of her inhabitants—a year. All the prov-inces in the kingdom are represented in this exodus, but it is chiefly from the southern part of the peninsula and Sicily. The United States receives most of the emigrante—New Vork City along her an The United States receives most of the emigrants—New York City alone has an Italian population of 450,000, larger than that of any Italian city except Naples, Rome and Milan —though many go to Argentina, ten per cent. of whose popu-lation is of Italian origin. Northern Italy, thanks to its recent industrial develop-ment is prospress but the difficult ment, is prosperous, but the difficulty of earning a livelihod in other parts of the country has resulted in the virtual depopulation of whole districts, many vildepopulation of whole districts, many vil-ages having been drained of their able-bodied inhabitants, and large tracts of land consequently passing out of cultiva-tion. "Emigration," as one observer puts it "has become a kind of epidemic." An-other result, which is causing alarm to the government, is the decreasing num-ber of men available for military ser-vice. The present organization of the army calls annually for 100,000 new re-cruits for the standing army and 25,000 for the reserves. Last year the number of isonscriptions fell to 75,000. It is suggested that some of the causes exsuggested that some of the causes ex-empting men from military service be disallowed, but such a proceeding would probably only increase the volume of emigration.—From Leslie's Weekly.

## DOWN AT THE WATERFRONT.

Centest of Two Willing Fighters Who Were Not Hard Hitters.

The policeman having gone away, the fight

The pollceman having gone away, the fight was resumed. The scene was the outer end of a South street wharf. Of the two fighters one was considerably tailer than the other and so had a longer reach, but he was handicapped by having something the matter with one of the fingers of his left hand, which was tied up with a white bandage. Both men were plucky en-ough, and when the policeman was far en-ough, and when the policeman was far en-ough, and when the policeman was far en-ough, and in minute they were at it mean, sparring for an opening. Ordinarily a fight between two men is a preity bruial thing to witness, but somehow this fight did not some to strike any of the lookers on as being very brutal, hor was it so in fact, for of these two men neither was a very hard hitter. Both fighters key steadily at the job but

It so in fact, for of ficks two men neither was a very hard hitter. Both fighters kept steadily at the job but of the two the tailer took everything all the time very seriously and wanted to come in to close quarters and fight rough and tumble, anyhow, while the shorter man had a grim sense of humor that made him smile occas-lonally, and he wanted to make it a stand up give and take fight. So when the tail man had forced the fighting and closed in and they were grabbing each other any-where they could and wrestling or whacking away at each other with swing blows with their first the chorter man would say, not to escape the fighting but because that wasn't his idea of how, to fight. "Break away?" and some of the bystanders, who had the same views would say the same thing. Then the men would break and face each other and pronce around argin and bit at each other. I is blows semilines handing, theur fight and prove ling had the grap.

and all

province of China to every part of China and all over the world. Last year about two dons of it, valued at \$3,000, were exported from Shanghai to foreign countries. The mater-ials with which this beautiful black link is made are sesanum or colza oll, or the oll expressed from the poisonous seeds of a tree extensively cultivated in the Yangtaze Val-ley and also well known in Japan. To this varnish and pork fat are added. The lampblack made by the combustion of these aubstances is classed according to the materials and the grade of fineness, and also according to the time taken over the process of combusion. The paste made of this lamp-black has some glue added, and is beaten on wooden anvils with steel hammers. Two good hammers can prepare in a day 80 pleces, each weighing half a pound. A certain qual-ity of musk of the musk deer or of Baroon camphor, for scenting, and goid leaves, vary-ing from 20 to 160 to the pound, are added to give a metaille lustre. The materials thus prepared are molded in molds of carved wood, dried, which takes about 20 days in fine weather, and adorned with Chinese characters in gliding. About 30 to 32 average-sized sticks of ink go to the pound. The price varies from 50 cents or less per pound to as much as \$55, there be-ing orer a dozen different grades. Nearly all writing is gone by the natives throughout China. Japan, Korea, Tougking and Anam with this China ink, rubbed down on a stone ink slab and applied with a paint brueh or sable, fox or rabbit hair, set in a bemboo-holder, and when not in use care-tuliy covered with a protecting brase cap.

fully covered with a protecting brass cap. The superior kinds of this ink appear to be used in China, and not exported.

UNLUCKY ROYAL SAILORS.

Misfortunes of Princes Who Have Followed the Sea as a Profession.

In view of the fact that Prince Edward of Wales has entered Osborne Naval College it is interesting to note, says London Tit.Bits, that the only royal sailor Princes who have escaped mishap are his father, the Prince of

Wales, and the Duke of Genoa. Some how royal and imperial princes who have adopted seafaring life as a profession seem to be pursued by ill-luck. The Grand Duke Alexis, Lord High Admiral of the Russian fleet, managed to run his yacht into a Russian steamship with fittle damage to the latter, but injuring the yacht so much that the

repairs cost 100,000 roubles. His brother-in-law, the Duke of Saxe-Coburg-Gotha, while Duke of Edinburgh, holding rank in the British navy, was so unfortunate as to lose his flagship, the Sultan, on a rock near Malta. Admiral the Prince of Leiningen also

had the misfortune to run down a vessel in the Solent while in command of the royal yacht, Queen Victoria herself being on board. Several lives were lost in this collision.

The sailor brother of the German Emperor has hitherto escaped maritime dis-aster; but his misfortunes on land have been uncommonly numerous, especially when he has been cut shooting. Not only did he severely injure a Greek gen-tleman by the accidental discharge of his gun at Corfu some few years ago, but there is also a gamekeeper of his uncle, the Grand Duke of Baden, who is in rescrit of a handacme consion from in receipt of a handsome pension from the prince for a serious wound result-ing from his carelessness in handling a gun

Archduke John of Austria, who passed the examination necessary to secure his papert as a licensed skipper, disappeared from sight a few years ago while round-ing Cape Horn in his ship.

Boxmakers' and Sawyers' Union at Poston, Mass., has secured a two-year auronment with a wage increase of 10 per cent.

INTERNAL PREFERRED. She-Do you go to the opera much? He-Never. She-But I understand your wife to "Do you drink yourself?" "That's my business!" (angrily.) Whereupon the unmoved lawyer say you were passionately lond of Italian productions? <u>He</u>—So I am; I love macaroni. sked: "Have you any other business?"

BEER\* IS GOOD FOR MOST FOLKS (HARDLY ANOTHER BEVERAGE FEEDS SO WELL)

> EER really excels milk as a food-drink for most grown people. And many, many people cannot digest milk easily, because it is so lacking in solid food-contents.

Moreover, milk is so liable to contagion that it is seldom pure when we get it in the cities. But Ontariobrewed beer is really pure,-brewed in cleanliness, of sound materials, in a sanitary way, and brought to the user in the same fit-to-drink state.

# Beer Is No Stimulant

Drink beer with meals and at bedtime, as an item of diet that will help the stomach do its work better, and will feed the body besides. Don't choose beer as a stimulant, though,-it does not contain enough alcohol for that. Use it as a food-drink that induces lazy stomachs to do their work well, and so helps them get more good out of all food.

# **Beer Makes Better Nerves**

Ontario beer is not only deliciously appetising and refreshing, because brewed of pure malt and hops only; but, besides, all the power that hops possess to repair nerve wastes is kept in these brews. That is what makes beer so particularly good for women to drink regularly. Ask your own doctor what he thinks of beer for your household.

BEED is a term which covers larger, aley, putter and stout; and, in the practise of Ontario Lrowes, implies beverages made under most hyponic conditions from Ontario barrey (the best is the world) malt, hope and pure water.
