

MESSRS. HENRY BIRKS & SONS have pleasure in placing in the hands of their many friends and patrons their Seventh Annual Catalogue. This book will be found one of the most complete of its kind published and fully represents a stock which is not only the largest in the Dominion but one of the most extensive on the American Continent.

By means of this catalogue and a well organized Mail Order Department, the firm has developed, in the past seven years, a most important branch of their business which now extends from the West Indies to the Yukon. With their extensive manufacturing facilities which include workshops for the manufacture of their fine jewellery, solid silverware, silver plate, cut glass, and stationery, each under the management of an expert in his line and all under the direct supervision of a practical member of the firm, they offer exceptional advantages to buyers desiring high-class goods.

They prepay charges and assume all risk in the shipment of orders. Should there be any disappointment in goods selected, they gladly exchange them or refund money in full as customers may wish.

Those to whom the firm come as strangers, the question as to their responsibility naturally suggests itself. A reference to any banking institution or commercial agency will furnish the required information as to the firm's reliability.

Intending purchasers unfamiliar with the ways of sending orders by mail, will find the desired information on inside of back cover of this book.
