R. W. E. BURNABY

Avondale Farm

Offers for sale its fine herd sire

Woodcrest Sir Clyde

weighing about 2,700 pounds—has immense depth and length, an absolutely straight to-line and well colored, being four-fifths white. He has now a dozen tested daughters, one with over 25 lbs. butter in seven days at 24 months, another with 22, and several from 18 to 20. A considerable number of his daughters are in hands of breeders who will test them. All his stock is marked by splendid conformation and size, being of truest Holstein type.

His Sire is Pietje 22nd Woodcrest Lad, whose dam, Pietje 22nd, has the highest record (33.62 lbs. butter 7 days and 13673 of milk in 6 months) of any cow ever imported to U. S. from Holland. She was the first cow to produce over 500 lbs. butter in 6 months.

His Dam is Alma Clyde, 33.07 in 7 days, 136 in 30 days. She made over 22,500 milk in one year. She has one 30-lb. daughter, full sister to Woodcrest. Her sire is the famous bull Sir Clyde.

WE HAVE RECENTLY REPURCHASED THE OLDER SON OF MAY ECHO SYLVIA, and are therefore offering Woodcreat Sir Clyde for sale, as we now have this cow's two sons. Woodcreat can be handled by a boy—is quick and sure—and will be guaranteed right in every we". He was five years in March last. Here is a prove, bull that will get both butter and show stock.
