

Sensitive Drilling Machines

No. 1 Column Drill

To the Manufacturers of Canada:
Why not buy sensitive drill presses made in Canada, which have time-saving features that no other similar machine on the market possesses.

These machines will take any drill with No. 1 taper shank, directly in the spindle, which is accurately bored to suit.

When used with chuck, any size from No. 0 to $\frac{1}{2}$ inch straight shank drills may be used.

No. 1 Bench Drill

THE ONLY DRILL PRESS ON THE MARKET ON WHICH THE TABLE
TURNS COMPLETELY AROUND THE COLUMN AT ANY POINT
