

Don't Feed POTATO BUGS

Vast quantities of good potato crops are destroyed every year by potato bugs. It is high time this foolish wastage was stopped. Paris Green has doubled its price—but don't worry,

ACCO SPRAY

is cheaper than Paris Green and just as effective.

The present world shortage of food makes it vitally important that you stop any wastage of food—especially potatoes.

Acco Spray is put up in 1/2- 1- 5- 10- and 25-pound bags. Any size for special order. If unable to purchase Acco Spray in your district, send us a card.

NEPONSET ROOFS

NEPONSET PAROID ROOFING NEPONSET TWIN SHINGLES

THRIFFT and production are the farmer's watchwords this year. Paroid is a tremendous help to the thrifty farmer, because the price is right, it is easy to lay, will require no repairs, and will last for many, many years. To date, Paroid has a record of over 19 years' service.

NEPONSET Paroid ROOFING

If you are roofing, or repairing roofs this year give your building the protection of Paroid. For instance, burning cinders falling on a Paroid roof die out harmlessly.

Paroid makes an attractive roof, too, either in the gray finish, or with the red or green crushed slate surface.

Insist on the genuine Paroid. Look for the label as shown here.
