

Did You Ever Think That Your Stable is a FOOD FACTORY?

WITH "BT"

Steel Stalls and Stanchions

YOU CAN HAVE A PERFECTLY SANITARY STABLE.

A stable bright and comfortable for the cows.
A stable that will last. No woodwork to rot out.
A stable that is easy to work in; quick to tie and untie the stock.
A stable that will hold more cows than with any other style of construction.

Fig. 194 shows the "BT" STEEL STALLS with LIFTING MANGER. There is some satisfaction in a stable like that. Do not put in an old-style construction that you will regret for years to come, and that will constantly be in need of repair. The cost of "BT" Steel Stalls is very little greater.

If you are building or remodelling your barn, write us for our catalogue on Stable Construction. It will pay you to find out why "BT" Stanchions and Steel Stalls sell ahead of all others.

In writing mention how many cattle you will tie up.

What the "Crown" Gang Plow does

One man instead of two

Make this test: The first day give your hired man a single-furrow plow and two horses. Take another single-furrow plow and two horses yourself. Then, do one day's plowing together. You will plow three acres, under favorable conditions.

Next day, use the "Crown" Gang plow and three horses. You'll find that you can still plow three acres.

Three horses instead of four

The second day the same work has been done with one man instead of two, three horses instead of four, one "Crown" Gang instead of two single-furrow plows. What this saving means to you in dollars and cents you can figure out for yourself. But it is enough to pay for the "Crown" Gang in a few weeks.

One "Crown" Gang Plow instead of two single furrow Plows

The "Crown" Gang stays right down to its work. It turns the furrows more evenly than a single-furrow plow. The easy-working levers are conveniently located. The wheels have dust-proof boxes with roller-bearings. You should learn more about the "Crown" Gang right away, and about our special orchard gang plows, too. So write for CATALOGUE F40.
