## WOULD YOU LIKE A Home in Semi-tropic California? THEN GO TO CITRONA PARK

**Situation**—CITRONA PARK is situated two and a half miles from Orland, on the main line of railway between San Francisco and British Columbia. It comprises several thousand acres of the best wheat land in the State, and has recently been laid out as a Temperance Fruit Colony. A clause in each deed prohibits the sale or manufacture of intoxicating liquor upon the property for all time. The opportunity which it presents to home-seekers and investors is one of the most attractive.

**Soil and Climate**—The soil is a rich loam mixed with small gravel, and will grow anything adapted to a semi-tropical climate, from apples to oranges. It is especially suited to the culture of citrus fruits, such as the orange and lemon. Peaches, pears, apricots, almonds, prunes, grapes, etc., flourish without irrigation. The district is practically immune from frost. The season is fully six weeks ahead of Los Angeles, and oranges are ready for the Thanksgiving and Christmas markets. There is an abundant and unfailing supply of water.

**Terms**—A ten-acre lot, which is amply sufficient for the comfortable support of a family, costs from \$65 to \$75 per acre, according to location. This is the net cash price. If time is asked, the price will be \$10 more per acre. The total estimated cost of purchasing and planting a lot (5 acres citrus and 5 acres deciduous fruit) is \$1,450. The further care of the lot until the returns from it defray all expenses may be placed at \$350. Or, if preferred, an average annual instalment of not more than \$187.50, (about \$15 or \$16 per month) will in a few years secure a beautiful home, yielding a handsome support, in a delightful climate, amid charming scenery, surrounded by cultured and church-going neighbors.

**Non-Resident Owners**—Those who do not wish to occupy their property until the fruit is sufficient for their support, can have their lots planted and cared for at lowest possible rates. A gentleman of long experience in the nursery business will take personal oversight of the lots of absentee owners. No more desirable locality, as far as health conditions are concerned, exists in California.
