

Power Lot—(Continued from page 164) to lead the meetin' don't you go reelin' off too cunnin' and long a yarn o' yer own; but tickle 'em up so's they'll allus be likely to put ye at the head. What will tickle 'em most is few words from you, for what they'll come to see and hear is young folks play-actin', and especially how that dancin' sea-squall an' careenin' flyin' jib of a Cuby Tee-bo 'll look actin' out a lesson in Scriptur. Say no more, for although I know the mericle o' the grain o' mustard seed, yet I have to own up to you here an' now—an' seek f'rgiveness ef I need ter

be f'rgiven—that I could as easy cry as laugh. "The sayin' is, 'Whosoever will,' Car'line," said sweet little Mrs. Skipper, who was also making a call at the house of the bride-elect. "I've heerd that the synod refused to help keep up the meet'n-house down thar' any longer ef they didn't make 't least one convart a year." "Ef they knew Cuby," said Caroline, speaking from a muse of simple meditation, "they'd ought ter allow a five year lease jest on makin' a convart out o' her alone, ef the' wa'n't no other

dippin' in all that len'th o' time, I mean. But I guess it won't git so fur as that. What Cuby wants ter do is ter show off me, an' the preacher made out his her smartness. Have You Seen Our New Fall and Winter Catalogue?

If not we want you to let us know at once, and we will send you a copy. It is well worth having, both as a style book and a standard of low prices. It contains a full list of the goods we sell and tells what we sell them for. Our prices are the cost of production with our one small profit added. Nearly all the goods we sell are either manufactured by ourselves, or bought direct from the manufacturers.

In ordering, try to make up a bill of goods that will weigh at least 100 pounds. They can then be sent by freight at the minimum rate, but any portion of 100 pounds costs the same as the full hundred weight.

We publish here a list of goods that are specially required for harvest. Note the prices and, if possible, order early so that we can get the goods to you in plenty of time.

Rubber Belting.

ture. It is uniform in width and thickness. This belting is thoroughly stretched in the manufacture, thus reducing to a minimum the amount of stretching caused by work. We guarantee it to be thoroughly reliable.
