INVESTIGATING MILK COSTS

The committee on milk supply consisting of the food experts of the principal cities of Canada, together with one representative of the producers and one milk distributor, met last week and completed the work preliminary to a thorough inquiry into the milk situation and a study of a number of questions related thereto. A questionnaire was prepared, covering in detail the information desired by the Committee, and has been sent to all producers and distributors of milk throughout the Dominion. The committee proposes to deal with questions of supply, costs, prices and profits. Consideration will also be

given to questions in regard to the manufacture of ice cream. The butter and cheese supply will be studied and questions in relation thereto will be discussed.

Much of this stock is sired by the best shorthorn sires in Ontario today.
