

water from the River *Saint Lawrence* which in the Spring, Summer and Fall is rendered turbid and impure in the extreme, from the filth and dirt that is washed into it from the City.

That to rid themselves of the expence attending this mode of obtaining water, but more particularly to procure the use of it in a pure state, the Petitioners have adopted, with pleasure, proposals which have been lately made by *John Gray* and others to supply this City with pure and wholesome water, and they are happy to observe that the works for carrying the same into effect are now in a very advanced state, but considering the great difficulties attendant on this very laudable design, and the necessity that the said *John Gray* and his Associates should be supported and encouraged by the Legislature of this Province, by receiving a suitable charter of Incorporation, with such powers as may be sufficient for the purposes of their undertaking. The Petitioners on the behalf of the said *John Gray* and his Associates most humbly pray, that an Act of the Provincial Parliament may be passed for incorporating the said *John Gray* and his Associates for the purposes aforesaid, with such powers and restrictions as the wisdom of the House may seem meet and necessary.
