WAS TOO MUCH "COLLAR"

German Saloon Keeper Jailed for Selling Froth Instead of Beer.

A despatch from Munich, Germany, says: Serving short measure in beer, and the deception of the public by filling the "steins" and "seidels" with froth so as to form what is popularly known as a "collar," has just been judged an offence punishable by imprisonment by the Criminal Court here. The tenant of a gigantic beer house, who was arraigned on a charge of defrauding the public in this way, was sentenced to six weeks in jail and a fine of \$750, and five of his waiters to terms of from one to

three weeks in jail. Evidence showed that it has become customary to serve glasses of beer in which the liquor did not reach the legally stamped mark indicating the proper measure, the drinking vessels being filled to the top with a large quantity of froth. In this way the profits of the house were greatly increased. The public, however, indignantly demurred, and to such an extent that a virtual beer strike was brought about, and many hitherto most popular drinking resorts have been practically deserted. The suit, instituted by several customers, lasted more than five months.
