

ABOUT READY TO BEGIN BUSINESS

Quinte Produce Company Will Be Running Full Blast in a Week.

The shareholders of the Quinte Produce Co. Ltd., had a general meeting of shareholders at the City Hall, Belleville, Saturday Oct. 21st, 1916 at the hour of 2 p.m. This was the last meeting to be held for organization purposes as the Company is now ready for business and connections for the different lines to be handled are rapidly being established and it is only a matter of about a week now when this business will be running full blast.

The charter of this company covers a wide scope and the powers contained therein are as follows:—

To manufacture, buy, sell and deal in goods, wares, merchandise of all descriptions without in any way restricting the generality of the foregoing to buy, manufacture and sell grain, flour, meal, milk and all dairy produce, agricultural produce of every description, fish, live stock, poultry, dressed meats of every description. To manufacture boxes, barrels, cases or other containers required for the purpose of the foregoing and to carry on the business of a miller, butcher, shipper, forwarder and warehouseman.

Among the things passed at this meeting was the ratification of the company's bylaws, Nos. 1, 2, 3, 4, 5, 6, and 7. These bylaws are open for inspection as prescribed by the companies act at the head office of the company, 302 Front St., Belleville, Ont., and were drawn up by Mr. Carnew, solicitor for the company.

The former directors, Messrs. F. Knight, T. Haslip, Ira Windover, H. R. Hunt, C. A. Palmer, D. Callaghan and T. E. Elliott were confirmed in office for the balance of the year.

The company has upwards of three hundred stockholders ranging in subscription from ten dollars to five hundred dollars, the majority being farmers with subscriptions of ten dollars each as this amount entitles a farmer to full benefits of the company in both buying and selling and from reports from other agencies of the same nature, these benefits should amount to a considerable amount on a year's business for the farmer with his goods handled this way.

Another matter was a motion put by Mr. Alex. Moore seconded by T. E. Elliott, that the Board of Directors of the company at next regular meeting appoint a committee to wait upon the mayor and council and ask for the opening of a central public rest room and public lavatory for the farmers' convenience owing to the reduced hotel accommodation, and the congestion on Saturdays at the remaining hotels.

The Directors on Monday, Oct. 23rd appointed Mr. Alex. Moore, Mr. C. A. Palmer and T. Haslip to act as this committee for to interview the mayor and council.

Mr. J. Hart, manager and Mr. T. E. Elliott asst. manager, were given practically a free hand at Monday's meeting of the board of directors to go ahead and instal a system, and open up the business as soon as the details in connection with the opening could be adjusted which should only mean a matter of about a week now.

This company seems to be starting with bright prospects and the possibilities to what it may develop are unlimited. The main object of the company being to stand between the farmer and the retailer on the one hand and the manufacturer and producer on the other through the means of a sales office to be opened in Toronto. The cost of incorporation and organization ranges around twenty-five per cent, and this seems to be a fair figure owing to the large canvass which has been made and the taking of subscriptions, the majority in ten dollar amounts. Co-operation should spell for this company "success."

A PECULIAR ACCIDENT.

A few days ago a horse owned by Mr. Arthur Gray, who lives about two miles east of Gananoque, was heard making a considerable noise in the stable. On going out it was found that it had in some unknown manner got its hind fetlock joint in its mouth and was unable to get it extracted. It was an unusual case, and the owner had considerable trouble in dislodging it.

Relief for Suffering Everywhere.—He whose life is made miserable by the suffering that comes from indigestion has not tried Parnelle's Vegetable Pills does not know how easily this formidable foe can be dealt with. These pills will relieve where others fail. They are the result of long and patient study and are confidently put forward as a sure corrector of disorders of the digestive organs, from which so many suffer.

German Positions Fall Before British Assault

Staff and Regina Trenches are Captured and Over One Thousand Prisoners Taken.—The Battle was Rendered Necessary—French Pulverized Counter Attack—Plains Weather for Artillerymen.

LONDON, Oct. 24.—Operations on the front south of the Ancre River Sunday, the British advanced their line east of Guedecourt and Les Boeufs and stormed 1,000 yards of German trenches.

This fighting was conducted on the extreme right wing of the British front, and it has resulted in a further widening of the frontage of admission. Up to the time of reporting, no returns of prisoners brought in were available for announcement.

By Sir Douglas Haig. The Germans attempted no counter-attacks on the newly won positions, but they were caught unawares for an assault in a neighborhood of Grandcourt. A few salves from the British guns speedily put an end to this intention.

The following joint despatch dated Sunday morning has been received from the British war correspondents' headquarters in France:

"The past two days of blue skies and hard cold winds has resulted in the drying of the ground in the battle area, again permitting activity. The British troops have already taken advantage of the improvement."

"Shortly after noon Sunday, following a hurried bombardment an attack was delivered along the front of about 5,000 yards, extending from north of Mouquet Farm in the direction of Le Sars. Our infantry advanced in fine style and the enemy, apparently surprised, put up a comparatively small show of resistance. A trench, which the Germans had seemingly already found untenable, was occupied and various useful positions are said to have been very light."

"Schwaben redoubt has been the scene of something pretty expensive to the enemy. Saturday morning the Germans delivered a counter-attack against the British, but they were repulsed with heavy losses. Our men employed bombs and rifle grenades so vigorously that the foe never reached the parapet, but was beaten back, leaving a great number of dead and wounded in the open."

"In the small hours of Sunday morning a stronger and more determined assault was launched against the British position. On this occasion the enemy gained a footing in the redoubt, but our men fought so fiercely that the enemy was soon routed, leaving one officer and 79 men in our hands."

"A feature of the past few days has been the highly successful counter battery work of our artillery, direct hits having been made upon a large number of the enemy guns and emplacements. It is a fact that the Germans admit they are being out-gunned by the British front more rapidly than they can be replaced, this is eminently satisfactory."

"In the course of violent fighting on the Somme front Saturday, in which the Entente allies sustained heavy losses, the British gained ground in the northern sector, near the Ancre River, in the direction of Grandcourt and Frys, the Berlin War Office announced Sunday."

Further Demands on Greece.

LONDON, Oct. 23.—The presentation by the Entente allies of further demands on Greece, including the removal of Greek troops to the southern part of the country and the handing over of the northern supplies, is reported by Reuters' Athens correspondent.

The Athens despatch, which is dated Friday, says the demands were presented to King Constantine by the French military attaché. Greece is required to transfer the entire military force in Thessaly (in the rear of the allied forces in Macedonia) to the Greek front, forming the southern extremity of Greece. Delivery to the allies of war materials destined for the Thessalian forces is also required. Other demands were made of the nature of which is unknown.
