Our opinion on the sub-ject is that an eloquent ad. is simply an Honest Ad.— the more honest, the more eloquent— and it attracts trade because people instinctively and ir-resistably believe in it.

FALSE ECONOMY.

I once knew a man who was so economical he picked up all the stray pins he found. It saved him at least thirty-seven beents a year for pins, and it didn't take more than fifteen dollars' worth of his time. This man was a false economist; same as the one who pays ten cents, for a pair of spectacles, More eyes are twinted by chase descripted thisse than it any other way. They Will Now Build Our Government Palace Cars,

Capable of Filling the Contract.

Ottawa, Nov. 8.—The order for Wagner palace cars which Mr. Hair has just placed in New York represents an expenditure of from \$100,000 to \$250,000. Fifteen cars altogether have been ordered. The Maritime Province papers are very sore at Mr. Blair's action. They point out that as the C. P. R. builds its own sleeping cars, lat least an opportunity might have been afforded to Canadian artisans to construct these cars. It appears, however, to be the policy of the department not to give to Canadian contractors a class of work which, it is said, they are quite compent to perform. It appears, however, that the Canadian car men must be content with constructing the chap box.

I expected to soon die of Consumption, when I heard of Dr. King's New Discovery, One bottle gave great relief. I continued to use it, and new am well and strong. I can't say too much in its praise." A RACE WAR.

Wilmington, N. C., Is Terrorized

Wilmington, N. C., Nov. 8.-The ne roes, while outwardly quiet, are nanoeuvring in secret. They have rewith rifles and other arms. They gave it out that their various orders have sworn death to the red shirts. But few white citizens slept soundly last night. Lawless bands of armed negroes gathered in the northern portion of the city. An outbreak is momentarily expected. A number of white women in that section were nearly prostrated with fear. White men guarded the bouses and the Wilmington Light Infantry and naval reserves rendezvoused at night at their armories. Street cars were stoned by negroes last sight and white people were compelled to desert them and walk. The police force was unable to command order.

GUY BROS. MINSTRELS.

Speaking of Guy Bros.' Minstrels, who appear here to-morrow evening, the West Virginia Daily says. "The celebrated Guy Brothers held the boards at the Olsten Opera House, Wednesday evening to a fine audience. The performances throughout were first-class in every particular, and were thoroughly enjoyed by the well-filled house. The Guy Brothers are cultured singers and rouscicans, and in their various roles elicited rounds of applause. Taken as a whole, it was unquestionably one of the best shows that has struck the town in a long time. Col. Turner, the veteran manager of the house, seldom makes a mistake in the engagement of his companies, and this fact thas become pretty well known to play-goers of Sisterville.

THE CREW WERE SAVED.

Special to The Planet. Wednesday, Nov. 8.—John Cooper has received word from Providence Bay that his schooner, the Mary Everitt, went ashore on Sunday morning and was a total loss. The crew were saved.

HOW TO GET GOOD ROADS, 4,

HOW TO GET GOOD ROADS,
In J. B. Stringer & Co.'s office the other day Henry Walters, the well know Haswich farmer, gave his opinion of the roads in Kent County. Mr. Walters said, it was impossible to have good roads under the present law.

"I have been path-master for twenty years and theyroads aran't as good now as they were then. This scraping of earth out at the ditches on to the roads only makes them worse. Then it is impossible to get the men to come out and do their statute labor and when you do get them out, it takes them one or two days to do as hour's work. We can do nothing in the matter of roads until the law is changed. I think the best solution of the difficulty would be to assess every man in the county annually say seventy-fire cents a head and use this fund in the improvement of the roads. I don't think that any of the residents would object and in timejwe would get good roads."
