To Subscribers in Arrears

Paper Controller Orders

Cutting Off of Unpaid

Mr. R. A. Pringle, K. C., the Paper Controller of Canada, sested an order, effective January I, 1919, which says:

"2. Discontinue sending paper within three norths after date of expiration of subscription, unless the subscription is renewed and paid for."

There are many other restrictions imposed, but this one is the most important. Therefore, between now and the end of the year The Courier's subscription has in use he overhauled and put on a paid-in-advance basis, in order to comply with a governmental order.

Accounts have already been sent out to those in arrears, but subscribers do not need to wait for a "din" to spur them to action. The date on the label affixed to the paper sent to mail subscribers tells the story. City subscribers have learn how their subscribers tells to story.

The reason for this regulation of the Paper Controller is that it is the practice of some publishers to send their newspaper and it is the practice of some publishers to send their newspaper and it is the practice of some publishers to send their newspaper and it is the practice of some publishers to send their newspaper and it occurs to collect anything for subscriptions in arrears, in which case there is a vintual waste of paper. It is to prevent paper waste that the new regulation has been decided on.

The manufacture of paper consumes labor, wood coal, chemicals and transportation facilities, and every ton of paper saved means just so much labor, raw materials, chemicals, fuel and transportation available for urgent war needs. For these reasons, the Government insists that paper shall be saved, and proposes that only those who pay for their publications shall receive them.

Under these regulations The Courier will have no choice in the matter of dealing with subscriptions in arrears for over these months.

Send in your subscription at once. Do not delay the col-
