Fire Rages on Islands.

Vancouver, B. C., Aug. 6.—Fire Warden Mackay and a hundred deputies are out fighting a great fire, which threatens fifty million feet of the best timber on Gambier Island, ten miles from Vancouver. On Valdez Island a great fire is burning practically over the whole island and is destroying thousands of dollars' worth of timber.

The crew of one camp was forced to abandon work on Saturday and make their escape to shore. So fast did the fire run that the crew saved their donkey engine only by backing wet blankets to abet the engineer, who backed the engine down to the beach.

Time is money.

NOTES FROM ERIEAU

Erieau, August 7.—The "Miriam," a handsome little auxiliary yacht from Erie, sailed into the bay and anchored back of Mr. Fellows' boathouse last night.

Mr. Popowowsky, a prominent citizen of Cleveland, and Mrs. Popowowsky, are registered at the Bungalow.

Miss Margaret Park spent yesterday in town.

Fishing on the bar was very poor, since the storm. Several fishermen, who are usually very lucky, were unable to procure either fish or bait yesterday.

Mr. W. H. Lugsdin, of the Bank of Commerce, Blenheim, who has been summering at Ben Obin, left yesterday for Muskoka, where he will spend his holidays.

Mr. Manson Campbell is the possessor of a fine new steel rowboat. The tug "McRae," of Wallaceburg, and the "Antelope," a barged loaded with stone for the breakwater at Port Stanley, came into port during the storm on Monday. They left again yesterday afternoon.

More than the usual number of sailboats were out on the bay last evening. Some of those noticed were the "On-a-Jag" and the "Arthur," with Stanley Merritt at the tiller, also the "Victoria," with Miss Jessie Houston, Mrs. J. E. Oldershaw, Miss Vera Neville, Mr. and Mrs. Fisher on board and Judge Houston as skipper.

Miss Margaret McCornock came out yesterday for a two weeks visit with her father at the Bungalow. It has been suggested that the

municipal authorities establish a ferry service to transport pedestrians over the sub-marine portions of the northern sidewalk, pending the making of the long-looked-for repairs.

Mr. Wm. Gordon was an Erieau visitor on Tuesday.

Miss Reycraft, of the Central school staff, who has been spending the vacation at her home in Highgate, arrived to-day for a fortnight's stay at the Bungalow.

Miss Nora Ferris and the Misses Colborne, who have been occupying Mr. Shillington cottage, Genevieve, returned to their homes in Blenheim Tuesday.

Mr. and Mrs. Fred G. Morley, who have been stopping at Thelma, returned to Chatham yesterday.

Now that the good yacht Baden-Powell is again in commission there are murmurs and mutterings of races and regattas. It is a perennial source of discussion, but beyond challenges and counter-challenges, explanations and apologies, the yachts seldom get. Some one has submitted the practical suggestion that a triangular course in the Eau should be marked off by buoys, and this, at least, would furnish a definitely outlined trip for the sailboats. The suggestion is a good one, and should be followed by action. Since the days of the Erie B., the Bonnie Belle, the Outlaw, the Louise, and the Baden-Powell, there has been little of the royal rivalries of this splendid sport.

Mrs. Frank Sharpe, who has been the guest of Mrs. James Glenn for the past few days, returned home this morning.

The excursion which was run by the Pere Marquette Railway, to Niagara Falls, under the auspices of the Methodist Church, Leamington, passed through here to-day.

Mrs. Spakeman and daughter Marjorie left this morning for the Grand Bend, the Misses Freida and Gertrude Spakeman and party having been at that pleasant resort for some weeks.

Word has been received from Mayor Shillington, of Blenheim, that he has reached his destination, Red Deer, Alta., in safety, and that he was pleased to find his brother a little better.

Dr. Hawks and family, of Blenheim, are in Detroit visiting friends. They went down on Sunday morning in their auto, and will spend a few days in the city before returning home.

Bird's Bull's-Eye Belting

IS ON THE MARKET TO STAY

It is bound to supercede both leather and rubber belting, because it is cheaper and more durable.

It is not affected by dampness. It will not stretch. It is no experiment. It has been well tried and satisfactorily in Chatham by some of the largest mills.

It is specially adapted for thrashers' driving belts and for any exposed machinery.
