

Yankee Restrictions To Keep Out Canadians

New Regulations Have Been Put in Force at Border That Will Prove Very Annoying to Canadians Seeking to Make Their Home in Neighboring Republic—Must Give Their Private History.

St. John, Sept. 28.—In the past people entering the United States have been subjected to a great deal of inconvenience by the United States immigration inspectors and at times cases have arisen which called forth bitter complaint because of injustice done. Yesterday there went into effect new regulations far more rigid than those heretofore existing, and which will make it necessary for many travellers to furnish and deliver all available information about themselves.

The immigration department of the United States in an effort to exclude from that country all that may in any way be considered undesirable citizens, has decided that an examination

similar to the one for "first papers" or the preliminary step towards naturalization, shall be made at the border. Hence under the new regulations all persons from Canada, who intend residing in the States, will be put through their paces before they are allowed to enter the country. The different inspectors have been instructed to secure from each intending citizen full information relating to his place of birth, the date of that unhappy event, his past career in business, and a lot of personal facts.

This examination does not displace the one held on declaration of intention of naturalization, but is along the same lines and is essential before citizenship may be attained.

In the past no physical examination of passengers has been made unless the appearance of the person was such as to attract attention. Nor will this rule be changed for the present, although it will be more strictly observed. The financial requirements remain the same just now, but it is understood that certain amendments on both of these points will be made shortly. These new regulations will mean a lot of extra work for the inspectors in St. John and in fact all along the Canadian border.

The officials here are of the opinion that they have lost to do now, and can scarcely see how with the present staff they can get through all the work that is put upon them.

U. S. INTERVENTION IS NOW ASSURED

Secretary Taft Will Probably Form a Temporary Government at Once Upon Landing of Marines This Afternoon.

Havana, Sept. 28.—With the Cuban congress meeting within a few hours to consider the resignation of President Palma, even the most experienced politicians are unable to predict what action will be taken or whether even a quorum will be secured. It is practically certain that the president is steadfast in his determination to retire, despite the efforts of the leaders of the military party to induce him to reconsider the matter. His effects at the palace are ready for removal and he and his family are reported to be about to depart for Matanzas. The Liberals held a meeting this morning to determine finally whether they would participate in the session of congress. Without them the quorum is impossible. There is little doubt that the intervention at all will fall in the desperate attempt to devise means to defer American intervention. This will be followed possibly this afternoon by the proclamation of a temporary government under Secretary Taft, and the landing of forces from the American warships.

Senator Savas, leader of the Liberal party, is reported this morning to have notified Secretary Taft that the Cuban government had issued orders to shoot him (Savas), J. G. Gomez, J. H. Gomez, Demetrio Castillo and C. G. Velez, in the most of Principle Castle. It is believed that the government will take care to resort to such extreme measures.

Cavalry Horses Scarce.

Washington, Sept. 28.—Difficulty is being experienced by the Quartermaster General's Department of the Army in obtaining horses and mules. Even at high prices good cavalry horses are scarce and nearly impossible to procure. The scarcity extends throughout the country. In the stock raising regions in the west and northwest. On account of the scarcity horses, animals suitable for the cavalry now are worth about \$140 a head, and are difficult to get at that price, on account of the recent demand.

Havana, Sept. 28.—The leading Moderate, Liberal and National leaders conferred here last night until early this morning, and decided to yield anything and everything in order to avoid intervention. It is now apparent that there will be no doubt that there will be a quorum at the meeting of congress today. Brigadier General Panstun boarded the United States flagship Louisiana this morning and conferred with Captain Condon, commander of the naval forces and other naval officers. The general said he was ready for whatever occurred and was simply awaiting orders.

A STRONG CASE AGAINST COLLINS

The Murdered Lady's Kerchief Found in Prisoner's Valise—Valise Opened in Court and Contents Disclosed.

Hopewell Cape, N. B., Sept. 27.—The strongest evidence for the crown which has yet been given in the preliminary examination of Thomas Collins, suspected of the murder at New Ireland of Mary Ann MacAulay, was that of Chief Clerk of the St. John police force after this afternoon's session before Magistrate Stuart at Hopewell Cape. The production from a valise taken along with Collins in Dean's Hotel at Musquash of a silk handkerchief on which was worked the name Mary Ann MacAulay, in itself damaging to the case of the prisoner as are also a number of statements he made to Chief Clerk while in jail at St. John, the principal one of these in regard to a gold watch which Thomas Lynch, of Carleton Place, owned and which after the suspect's arrest was not found and has never been located.

Mr. Clark, in his evidence, said that Collins for a time had denied ever having this watch, but later said he had thrown it away. The prisoner showed more interest in the evidence than he had ever previously displayed in this afternoon's case. It was a great surprise to the court and the public when he was opened in court and its contents disclosed. Then he leaned forward on the table at which he sat watching eagerly every movement and when the last article had been removed the prisoner was perspiring freely although the court room was not more than comfortably warm.

The emptying of the valise was one of the most interesting features of this afternoon's case. It was a great surprise to the court and the public when he was opened in court and its contents disclosed. Then he leaned forward on the table at which he sat watching eagerly every movement and when the last article had been removed the prisoner was perspiring freely although the court room was not more than comfortably warm.

CAR SHORTAGE IN THE WEST

Winnipeg, Sept. 28.—Car shortage in the West, and it is stated on authority of an agent of a leading elevator firm that at twenty-two points the blockade is so complete that buying has ceased and farmers must haul their wheat elsewhere to make their own provisions for storage. EAST ELGIN NOMINATIONS TAKE PLACE

David Marshall the Conservative Standard Bearer, G. H. Haight for the Liberals.

HEPBURN SPEAKS OF HIS TROUBLES

Conservative Candidate Discussed the Political Problems of the Day.

While Mr. Haight Occupied His Time in Rehearsing His Hopes and Desires.

Aylmer, Ont., Sept. 28.—Nominations for the East Elgin Dominion bye election took place here yesterday. Granville H. Haight, farmer, of Sparta, was nominated as the Conservative candidate, and David Marshall, manufacturer of Aylmer, was the Liberal candidate.

Haight spoke briefly a week ago he had been working on the farm, cutting corn in fact. Today he was the Liberal candidate in East Elgin. A week hence he would be the member for East Elgin, perhaps, he added guardedly. He promised if elected to serve the people as honestly as he could.

H. P. Hepburn, the original Liberal candidate, was not called on. After explaining the alleged scandals which had induced him to withdraw, he declared his innocence of wrong doing and said he would fight the thing to a finish. He had withdrawn in the interest of the party, because there was no chance to prove his innocence, and he was not forced out of the race. Mr. Marshall dealt at some length with the problems which had arisen during the campaign. With reference to the slanderous stories against Hepburn which were said to be in circulation about the riding, he denied positively that he was responsible for them in any manner.

Hepburn Must Give Evidence

Not Time for Fire and Sword

Emissary of Russian Revolutionary Party Disavows the Programme of Terrorists and Would Invoke the Aid of Friendly Countries.

New York, Sept. 28.—The World today says: Ivanovich Norodny, chief executive commissioner of the Russian military revolutionary party, is here to establish headquarters in America for the revolution. He comes to solicit one million signatures to a petition to the Czar, praying for liberty, justice and amnesty. He comes upon a mission of education, to disavow the bloody acts of terrorists. A mild mannered man, is Norodny, about 40 years old, whose face tells the story of suffering. Twenty years ago, happy husband, owner of several estates and a man of consequence in Finland, the land of his birth, today he weeps for his wife, confined in an asylum, the victim of the brutality of the Cossacks, prays for the repose of his eldest son, slain by the same Cossacks. Four years in a Russian prison left him a physical wreck. Most of his fortune has been confiscated by the Russian government.

"I come to solicit names," said he last night while seated in his rooms in the new Hotel Albert. "I shall present my petition first to the five Americans best known in Russia. They are President Roosevelt, Mark Twain, William Jennings Bryan, Thomas A. Edison and Miss Jane Adams, of Hull House, Chicago. I have here prepared a propaganda in part it says: 'On behalf of 150,000,000 of people I cry for help. We require nothing but active and sympathetic moral support. Oceans of blood were spent to free the black slaves. Millions upon millions of our countrymen are suffering a worse slavery. We despise anarchy and every form of violence. I wish to declare on the Czar not a war of blood, but a war of education, a war of moral suasion. The Russian peasant, hungry for learning, for books, for teachers, for Christian missions. This is the war I would wage on the Czar. This is not the time for fire and sword.'"

THE HURRICANE SPENT ITS FORCE

But Communication Between New Orleans and Outside Points Has Not Yet Been Effected.

New Orleans, La., Sept. 28.—New Orleans early today was still cut off absolutely from communication with points on the Gulf Coast east of here. For thirty-six hours no information of any sort had come from towns not more than an hour's ride by rail in the direction of Mobile, and anxiety regarding the situation in those places became intense. The Gulf coast was cut off by the storm. The families have been separated by the storm. All day yesterday and last night the washout on the Louisville and Nashville Railroad, 25 miles from here, marked the farthest point eastward reached by rail, telegraph or telephone. For hours after the hurricane had passed the two mile portion of railroad tracks which was submerged by the incoming tide was exposed to the equally dangerous outward flow of the receding high water.

Local Louisville and Nashville officials today announced all the trains would be cancelled until further notice. This morning a Post-Chartrain had calmed and the high water fallen to very near its normal level. The first reports from interior Mississippi towns indicated that the hurricane did great damage in its northward progress. Vicksburg and Natchez reported buildings injured and Jackson and Brook Haven reported damage of 10 per cent. to the cotton crop. Dr. V. Galliard, a passenger on the first New Orleans and Northeastern train which came into the city late last night, said the result was compelled to run slowly through the storm yesterday with trees continually falling, some of them threatening to block the tracks. "In roofed or demolished negro cabins were continually passing. Frequently the lashing of the wind and cracks of trees made a noise which drowned the rumble of the train."

Guelph, Ont., Sept. 28.—Word has reached here that Mrs. Waldman, who was injured and burned in the Wabash railway wreck at Catlin, Ill., on her way to Guelph, succumbed to her injuries yesterday morning at St. Elizabeth hospital, Danville, Ill. U. S. SAILORS RECEIVED BY POPE

Apostolic Blessing Bestowed and a Souvenir Medal Given to Each—Urged to Be Loyal and Faithful to Church.

Rome, Sept. 28.—The Pope today received fifty of the American sailors from warships now at Naples. The party, which was conducted to Rome by Chaplain McGilly, of the armored cruiser West Virginia, was presented to the pontiff by Manager Kennedy, rector of the American College here. The Pope gave each man his hand to kiss and delivered a short address, urging the sailors to be loyal to their religion and country, faithful in the performance of their duties, and obedient to their superiors. At the conclusion of the audience, the pontiff bestowed the apostolic benediction on the sailors and caused each of them to be presented with a souvenir medal. When the Pope retired he was heartily cheered by the visitors. The sailors were photographed in the Court of Damasus.

APPLES SCARCE THROUGH VERMONT

Burlington, Vt., Sept. 28.—A bulletin issued by the Vermont Agricultural Experimental Station said that reports received within the past few weeks from widely separated fruit growing sections of the country indicate a great reduction in the apple crop, as compared with predictions made earlier in the season. The general situation seems to be that the crop is irregular and scattering, being heavy in some localities and small in others. A careful review of data at hand does not justify an estimate of the apple production for 1906 at more than a medium yield. Regarding the situation in Vermont the bulletin says that reports received at the experimental station from a large number of orchards indicate that in no instance is there more than a medium crop of fall and winter varieties of apples, while in many cases it is light. It is doubtful, on the whole, whether the total crop in this state equals that of 1906.
