A Birthday Address.

Among the passengers by the Furness steam with the following burthday address in connec

ON BOARD THE S. S. ULUNDA,

Most illustirous sir! It has come to the notice of the undersigned, your fellow-pas sengers and admirers on board this good ship that on this day, about the beginning or mid dle of the present century, in some unknown to us, part of Scotland, you first saw the light excellent qualities.

Many farmers in Restigouche are busy harvesting their grain. The weather is exceedingly fine for such operations. The crops are above the average, and will soon be all secured if dry weather continues.

To us, part of Scotland, you first saw the light. We know no one among our acquaintances who has put to so much good use the light of this world as you have done. You have preserved and pictured so many shades of ourselves on this trip, carefully capturing the passing smile as well as the occasional expression on our faces, which when it was rough was not always a smile that we in return express a devout hope that your own shadow may never grow less. Our trip to the old country would have done. lost much of its enjoyment and picturesquess if we had been deprived of your copanionship and camera on ship beard. could not therefore allow this day which of and so important in you own, to pass without congratulating you on your length of days and expressing our sense of favors, past and pre

sent and to come.

In the classic days of old the artist wh carved in marble or painted on canvass and thus made immortal the men and gods of his time was deemed worthy of the highest honors the nation could bestow. We in like manner the nation could bestow. We in like manner metaphorically, place on your (metaphorically) classic brow the wreath that (metaphorically) never fades, and designate you the artist laureste of all "specially conducted parties."

Athough you have photographed great men and great objects on your trip, to wit the Duke of Marlborough and the field of Waterloo, we have been pleased to notice that neither yourself nor your faithful camera have been swelled up with pride. We attribute any swelling in either to the feasting in one case and the fog in the other.

In our eyes, sir, you are a far greater man than either the Duke of Marlborough or the Duke of Wellington. While the latter was able on one occasion, (and it took him all day

Duke of Wellington. While the latter wa able on one occasion, (and it took him all da to do it), to take the field of Waterloo, he wa not able to keep it, but you, sir, taking advan-tage of one glimpse of sunshine on a very wel day, have captured and preserved the field o Waterloo for England and her colonies for al waterloo for England and her colonies for at time to come, and if we have not been misin-formed, and the glass has not been broken in the hold you are now carrying it across the ocean to exhibit it to your friends and family— the big lumberman and the little yeomonary of the majestic Miramichi.

To any warriors or statesmen who claim pro-minence, you can always answer with a nega-

ladies of the party have prevaited on the steward to have baked for you a birth docake—hence this address—bence this spreas. We ask you to be the first to cut this cake. We ask you to be the first to cut this cake, but not if you please, to eat it all. It is bi. with fate and we all ask an equal chance to try our fortunes. And now may good digestion wait upon your appetite yet at the same time we ask you to look out for such indigestible articles as wedding rings, butten-books, hair pins and boot jucks, which are essential ingredients in the construction of every well bred and well-baked birthday cake.

With the greatest sincerity, believe us, we wish you many happy returns of this day (fit) or more renewals at twelvemonths without any discount and speedy and safe re-union with

fron you will always remain your faithful and loving fren's:

S. Andrew's Church.

For several weeks past the usual services have been held in the School honse while the interior of the church was being painted. It is expected services will be resumed in the church on Sunday, September 8th. The appearance of the church has been greatly improved under the artistic hands of Mr. Frank Bockler. The pinels of the roof of the chancel, eighteen in number on each side have been painted light tints which make a pleasant contrast to the woodwork of the roof and the mouldings which surround the panels, which are work of the roof and the mouldings which surround the panels, which are stained a dark color. A border surrounds the light tints which is of a stained and the mouldings is in the blood. It is a wonder in our purifier and invigorating tonic.

Do you think the proprietors of I Sage's Catarrh Remedy would offer they have done for many years a stained and the mouldings is in the blood. It is a wondering our purifier and invigorating tonic. slightly darker shade, with a line of vermillion between the two colors and ornamental corners and centre. Correspondence.

We are frequently informed that the Jesuits had a moral claim upon the claim should be recognized and \$400,000 be paid in compensation. Even Mr. claim. He says-"The Government does not recognize any civil obligation, but merely a moral obligation." The Governor General also recognizes this moral obligation.

Now, then, we naturally ask, if the Jesuits have a moral claim to the confiscated property in dispute, has not the Government of France a stronger moral Jesuits for the loss which the moral philosopy, in the University has been discovered in Hants county, N. S., their property; ought not Great Britain
