Chinese Smuggled

Chicago, April 23.—Customs Inspector O'Gallagher has seized two Chinese in a box car in the Wabash freight yards and turned them over to Chinese Immigrant Inspector Plummer. The prisoners will be given a hearing next week. Inspector Plummer began an investigation at once, in an attempt to discover the smugglers sending Ohinese immigrants across the Canadian boundary.

The two prisoners came in a sealed car of merchandise from Windsor, Canada. They were well provided with food and water, and were found complacently lunching when the car was opened. *.....

BROKE FAITH WITH THEM.

Manufacturers Complain of Treatment by the City.

At the Board of Works meeting last night W. H. Yates, President of the London Machine Tool Company, charged the city with breaking faith with his firm in failing to fix up the road on Lottridge street leading to the factory. It was in such a terrible state, he declared, that it was impossible to get teamsters to drive over it. Former Assessment Commissioner Hall had promised the company sioner Hall had promised the company a good road to the factory, and that was one of the inducements that caused the firm to decide to come here. Mr. Yates showed the aidermen photographs of wagons stuck to the hubs in mud, and decented that the railway cartage com-panies would not let their teamsters go

A deputation from Delaware avenue, headed by D. S. Gillies, was on hand to demand that some repairs be made to that street. Chairman Allan said he could spend half a million dollars on the streets without wasting any money. He wanted to know how much he could do with \$32,000. The improvements asked for on Aberdeen avenue, between Queen and Garth streets, by property owners, will not be made at present, in view of the fact that the Hamilton & Dundas Railway is recommended for the property owners and that the second of the plating some changes on that ave

ACCIDENTS.

John Wheeler and John Holliss Were the Victims.

John Wheeler, 81 Princess street, was thrown from a car yesterday afternoon and painfully hurt. He was shovelling coal from a box car into a wagon at the corner of Ferguson avenue and Kelley st. when a freight train backing up struck the car and knocked it off the track. The jar caused Wheeler to lose his bal ance and fall to the ground. He was taken to the City Hospital. His injuries, while painful, were not serious. He was much better this morning.

John Holliss, 198 Princess street, a baker, employed by A. M. Ewing, was painfully injured last night. He was operating one of the machines when his hand got caught in a cog wheel, and it was necessary to take him to the City Hospital and amputate one of his fin-gers. He was doing nicely this morning

Should they fail bench warrants will be issued, but the Crown authorities do not anticipate that such drastic action will be necessary. They believe that Mrs. Kinrade and her daughter, acting perhaps on instructions, took advantage of a legal techni-

is not expected that they will refuse to

For some reason the authorities vesterday sought to convey the impression that it was not the intention to call these important witnesses last night. Early in the week Crown Attorney Washington wrote to T. L. Kinrade, the father, and notified him that the presence of his wife and daughter would be required at the inquest last night. Pro vincial Detective Miller repeated this request in person on Wednesday night. The officer did not see Florence, but he

Baum will not appear at Bennett's Theatre here and did not come to Hamilton for that purpose. It is true that Manager Appleton some time ago made him a liberal offer to appear on the stage here this week, but Baum hesitated about accepting. Mr. Appleton then cancelled the offer.

An opinion prevails that a crisis in the case has been reached, and this is said to be one reason why the public were ordered barred from the court room. The rule, it is understood, will be rigidly enforced to-night. The authorities were not so anxious last night, house there had a purpose the result of the re

Attempts to interview Baum proved futile last night. It is said that Mr. Blackstock, Mr. Washington and Detective Pender had a conference in the Royal last night after the inquest.

Mrs. Kinrade and Miss Florence Kinde were served with subpoems this morning, ordering their attendance at the inquest in Hamilton to-night. They were found at the Abberley House on Sherbourne street, where have been staying some time. Provincial Detective Miller served the subpoems.

I am asked to explain the statement made in this column the other day that it appeared to be the law that the men were allowed to go although the women and girls were fined. To be guilty of an offence against the law it must be proved that the person caught in a raid is a "frequenter." He may be there and yet not be one. It seems to be usually assumed that the females caught are frequenters. Perhaps the men paid the fines.

There are no less than four separate gangs employed on different jobs there. The street railway has a big gang handling its work, the city is replacing the curbing on the east side of the street, the waterworks is hustling to get in the services before the new roads are laid, and the natural gas company is busy with the same object in view.
