

THE CONCEPTION-BAY MAN.

at a killing pace; the sable vocalist with a roguish side leer passing, and unpolitely shewing her heels as she left poor Bill a few perches from the winning post, in a condition fully indicating his bellows required a new pipe,

THURSDAY—FIRST RACE.

A Purse of 12 Dollars for all the beaten horses of yesterday.

There were three horses started for this race, and whatever mistake there might have been about "John Gilpin" of old, all the spectators who saw them in their full career could not fail of knowing that they RAN A RACE, any how, in all directions; evincing the strongest symptoms of dislike to the evenness of the course, and the greatest abhorrence to facing the winning post.

SECOND RACE.

A Purse of 12 Dollars for Cart Horses. Mr. Dooling's, Whitestocking..... 1 Mr. Aspel's, Larry O. Gaff..... 2

This was decidedly a beautiful race. Larry pushing hard for the lead, but Whitestocking worked well and held it throughout. Larry was drawn the second heat.

A race between Capt. Green's Sidney and Mr. Walsh's Warhawk, came off next, which was most admirably contested. The two animals are, what is called "crack, and a very excellent match. The running all through was at a desperato pace, and each rider did his best; and although Warhawk lost the race, (not undergoing preparatory training), it was said he was at bottom more game than Sidney.

During the two days amusement the amateur band was in attendance, and played some admired and striking pieces of music; and the whole of the proceedings passed off quietly, giving general satisfaction.

PHENIX FIRE ASSURANCE COMPANY,

Lombard Street, and Charing Cross, London

[ESTABLISHED IN 1782.]

Insurances against Fire are effected by the Phoenix Company upon all descriptions of Property in Newfoundland, on the most favourable terms; and the experience of nearly three quarters of a century has manifested to the public the promptitude and liberality with which all losses have been adjusted by them.

Persons insured by this Company do not depend upon restricted funds for the payment of their claims; the Security offered by the Phoenix Office being unlimited, comprising in addition to the large invested Capital of the Company, the whole fortunes of a numerous Proprietary, composed of some of the most opulent gentlemen and merchants in the United Kingdom.

Rates of Premiums and all particulars of Insurance will be made known on application to the undersigned, by whom Policies are issued free of charge.

1849	27	500	46 18 4	40

This Company added about £90,000 to its permanent capital, for the increased protection of its Insurers. This step distinctly shows that the Company has always acted upon the principle enunciated by one of the directors at the last Annual Meeting of the proprietors—that the interests of the assured have a paramount claim on the directors—a claim superior even to that of the shareholders themselves.

From that moment, as might be expected, the Company attained the highest consideration throughout the country, and has retained it ever since. The result is shown in the unexampled fact that its Fire Revenue alone rose in about five years from little more than £30,000 to about £130,000!

A further cause of this rapid growth lies somewhat more below the surface, but is yet of importance. From inquiry we learn that no fire office possessing half the above revenue annually deposits its accounts with the Registrar-general.

The resources and balance-sheet of this great Company are, on the contrary, annually registered, and unmistakable evidence is thus given periodically of its capacity to meet its engagements.—*Morning Herald*, December 26, 1855.

Indeed, the bonus of the 'Royal' may be pronounced to be larger than any yet declared by the mass of the English offices. Here is an office which yields a fairly earnest and wholesome reversionary bonus of 80 per centum in its Life Branch, and in regard to fire operations, can make this very enviable boast, that it has exceeded the Fire business of all but two of the London Fire offices—viz.: the receipt of nearly £130,000 per year in Fire premiums alone—some of which ancient offices have been in existence for a century!—Equally successful and singular in both departments. Indeed, the Life Department may be said to present results equally as worthy of mention.—*Morning Chronicle*, November 28, 1855.
