Tenders, addressed to the undersigned and marked, "Tenders for Uniforms" will be received up to 12 o'clock noon, March 24, 1917, for supplying uniforms for the members of the police force of the Town of Newcastle, for the current year. C. C. HAYWARD,
Chairman, Police and Appointment to Office Committee of the Municipal Council of the Town of Newcastle.
Newcastle, N. B., March 14, 1917.

O.C. of Forestry Company Here.

Major H.S. Jones and Capt. Shuttleworth Arranging Recruiting Office.

Major H. S. Jones of Apohaqui, O.C. the Forestry Company being recruited in the province of New Brunswick, and Capt. Shuttleworth of British Columbia, who is assisting in the recruiting, were in Newcastle this week making arrangements for an office in this town for which purpose they have been loaned the store in the Morris Building on Castle St. This company will be recruited as rapidly as possible as England is today calling for skilled workmen in the Forestry class.

The Foresters will have a very attractive window in their office, when completed. The tools and implements with which the Foresters work, has been kindly loaned by Mr. D. W. Stothart, and will be displayed in the window.

The men receive very little drill on this side but on reaching England are classified as to their merit, many commissions are won from the ranks of this division.

There will no doubt be a generous response to the appeal to enlist in this unit.

The members of this battalion have important work to perform in keeping the units on the firing line supplied with the lumber required. Corp. McCluskie will be left in charge of the Newcastle office.

March Weather Rheumatic Weather

Victims Can Cure Themselves With Dr. Williams' Pink Pills.

With the coming of March people who are afflicted with rheumatism begin to have unpleasant reminders of their trouble. The weather is changeable—balm and springlike one day, raw, cold and piercing the next. It is such sudden changes of weather that sets the pins and tortures of rheumatism, lumbago and sciatica going. But it must be borne in mind that although weather conditions start the pains the trouble is deeply rooted in the blood, and can only be cured through the blood. All the lotions and liniments in the world can't cure rheumatism. Rubbing may seem to ease the pain while you are rubbing, but there its value ends. Only through the blood can you cure rheumatism. That's why Dr. Williams' Pink Pills have so many thousands of cures of this trouble to their credit. The new, rich blood which they actually make drives out the poisonous acid and rheumatism is vanquished. Among many sufferers from rheumatism who have been cured by this medicine is Mr. C. H. McGee, freight shed foreman for the G. T. R. at Peterboro, who says:—"In the course of my work I am naturally exposed to all kinds of weather, with the result that about two years ago I contracted rheumatism which settled in my legs. At times I could scarcely walk and often had to quit my day's work owing to the stiffness and the pain. I tried different remedies without getting any help, until I began the use of Dr. Williams' Pink Pills. I used six boxes of these and can say that I am about as well as ever I was. I still take the pills occasionally, and I hope that my experience may be of benefit to some other rheumatic sufferer."

If you suffer from rheumatism, or any other disease of the blood, begin to cure yourself today with Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from "The Dr. Williams' Medicine Co., Brockville, Ont." (adv.)

While an increase of \$1 per month was made in another case. Several cases were deferred pending proof of enlistment.

MR. CORBETT DID GOOD WORK

During the past few months the Dalhousie Lumber Company, Limited have improved their Mill Storage Boom by adding four new piers. These piers are twenty feet square on the bottom, floored and heavily ballasted to resist the tendency to "lift" with the ice, are planked on all four sides and present a very creditable appearance.

The construction of these piers provided employment through the winter for a considerable number of men and teams under the supervision of Mr. Wm. Corbett of Bryerton, N. B., and to his experience and careful direction is due in a large measure, the skilled workmanship evidenced in the completed piers.
