Gallipoli and France Heroes
 Entertained at Irish Hall.
 Our returned heroes of the Army and Navy were tendered a tea last night by the Daughters of Empire at the Club Rooms of the Benevolent Irish Society. Refreshments in profusion were supplied by the good ladies and after justice had been done by all present, a concert was given by the members of the B. I. S. to which Sgt. Edwards, Sergt. Mercer, McGrath and Pte. O'Keefe contributed well received numbers. Equally enjoyable and entertaining were the songs discoursed by Messrs. J. L. Slatery, C. J. Fox, J. Devine, T. P. Halley and J. Sullivan. Sergt. Nugent, the well known veteran of "Ours," then delivered a fluent address and during the course of his utterances remarked that the Irish Society, by reason of their kindness to their brothers in arms, were deserving of the prefix "Most" before "Benevolent." He called for three cheers for the B. I. S. which were enthusiastically given by every soldier present.
 On motion of Sergt. Moore, a vote of thanks was tendered the Daughters of Empire in hearty fashion.
 Mr. J. L. Slatery, on behalf of the B. I. S., of which he is the zealous Vice-President, thanked Sergt. Nugent and associates for their kind and happy manifestations. The proceedings were brought to an all too early termination by the singing of the National Anthem by the entire company.

C.W.A. Christmas Tree and Sale.
 The Cathedral Women's Association held a Christmas Tree and Sale of Work at the Synod Hall yesterday afternoon and night. The affair was opened by the Rev. Canon White, Rector of the Cathedral, who delivered a short address complimenting the Association on their splendid efforts, which undoubtedly would be appreciated by those who attended.
 The Christmas Tree, which was erected on the platform, was greatly admired and the 20 cent packages which it contained were quickly disposed of. The names of those holding the winning tickets were announced by Mr. Arthur Burgess. During the afternoon refreshments and teas were served.
 The plain and fancy work tables were nicely decorated and did a rushing business, practically everything being sold.
 A very enjoyable concert was held at night, the programme consisting of songs, recitations, etc. Those taking part were:—
 Misses Furneaux and Bartlett, Mrs. Dr. Smith, Rev. C. Moulton, Messrs. W. Earle and F. Seymour. The ac-

A Frightful Death! Suffocated in Asthma Attack.
 Every sufferer from asthma knows the terror, the abject fear that overcomes them when struggling for breath. The old fashioned remedies may relieve, but never cure. Best results come from Catarrhose, which cures asthma after hope is abandoned. It's because Catarrhose kills the asthma germ that it cures. Choking spells and labored breathing are relieved, suffocating sensations and loss of breath are cured. Every trace of asthma is driven from the system, and even old chronics experience immediate relief and lasting cure. Equally good for bronchitis, throat trouble and catarrh. The large one dollar outfit includes the inhaler and lasts two months, sold by all dealers or from the Catarrhose Co., Kingston, Canada.

King Lets Horse Drink First.
 The son of a leading manufacturer of Brussels, whose two brothers have been killed at the front, tells the following anecdote, which dates from the first summer of the war:
 "It had been a hot day and King Albert, who had not left the trenches for hours, was suffering from thirst. He asked for something to drink, but not a soldier had anything left. Back of the trenches a man saw a horse drinking and went over and started to pull the bucket away.
 "Don't do that," said the King. "Let the poor animal drink; perhaps it needs it more than I do."
 "It was not until the horse had finished drinking that the King took up the bucket and drank the few drops that remained."

Household Notes.
 To make potato chips that are crisp, cut the chips into very cold water, then lift out and dry between cloths and drop into boiling fat.
 To make apple stuff pare and core apples and fill the centres with cocanut soaked in milk. Strain until soft, then move to a shallow pan, sugar and brown.
 Ink in the small ornamental ink wells evaporates quickly, prevent this by lining the cover with absorbent cotton and saturating it with water.
 The easiest way to clean the bean pot is to fill it with cold water, put in some kind of washing powder, cover tight and let stand on the stove and come to a boil.

companists were Mrs. Smith, Misses L. Earle and Olive Wood.
 The amount raised, which passed all expectations, will be in part donated to the Red Cross Fund.

Hr. Grace Notes.
 We regret to report that Mr. George Davis, of Woodville Road, is very sick for the past two weeks or so. All his friends are hoping for a change for the better soon.

The Rally Service held in the Methodist Sunday School yesterday was a very interesting affair. The speakers were:—Reva. Holmes and Coffin, Miss M. Butt, Superintendent of the Presbyterian Sunday School, Messrs. John Trappell and Wesley Parsons (Teacher). A recitation by Master Warren Goodwin, entitled "Love March," was beautifully rendered and heartily enjoyed.

The schr. Studland arrived from St. John's on Friday with a load of provisions to her owner, Mr. E. Simmons.

The schr. Studland, Capt. J. Pike, is loading cod-fish for St. John's.

Mr. Bernard Parsons, J. P., is able to get about again after a rather serious attack of illness.

Mr. Mark Sellars came in from Bell Island yesterday and returned again to-day by train via Kelligrewa.

Mrs. E. Stone and Miss M. White-way were among the passengers to St. John's by train on Monday.

The young ladies of the Harbor Grace Boot and Shoe Factory are arranging for a patriotic tea to be held in St. Paul's Hall, on St. Stephen's Night. The affair will be under the able management of Mrs. Burton, the amiable forelady of the factory. It will, no doubt, receive the full share of public patronage that the worthy object deserves.

The sons of England entertained two of their members at their hall last night—Reservist George Sellars, who left this forenoon to join his ship at Halifax, and Private Robert Telford, of the Mtd. Regiment, who is home from the battle front on sick leave. A most enjoyable evening was spent and the very best wishes of their brother members were tendered these brave fellows.

CORRESPONDENT.
 Hr. Grace, Dec. 5, 1916.

THE FIRST PAIR.
 Don't make any mistake this year. Let your first pair of rubber shoes be Bear Brand. Times are too hard for anyone to take chances of being out of work for two or three weeks with a cold which could have been avoided by getting satisfactory rubber shoes. The good old BEAR BRAND shoes, which are becoming more widely known every day, are being sold in St. John's by:
 John Anderson,
 W. R. Gooble,
 Nicholls, Inkpen & Chafe, Ltd.,
 Royal Stores, Ltd.,
 F. Smallwood,
 Steer Bros.,
 Jesse Whiteaway.

His Perilous Ride.
 The invention of wireless telegraphy has done away with much of the old time despatch sending which was so picturesque a feature of previous wars. Often when two friendly armies are separated by a force of the enemy, it is a matter of defeat or victory that a means of communication shall be opened between them. Thousands of brave men have lost their lives in performing this temporary war postal service.
 During the Russo-Japanese war an officer of Cossacks offered to carry a despatch which ten horsemen had already failed to get through.
 "The others have failed," the officer insisted, "because they travelled on horseback. I shall go under my horse."
 "Under your horse," the general exclaimed. But he accepted the offer of the volunteer. Whereupon the Cossack officer received the communion, said his prayers, bade good bye to his men, and started off in the middle of the night strapped face downward beneath his horse, which he guided by means of passing the reins between the fore legs of the horse. The Japanese outposts whistled to what they thought was a riderless horse, but did not shoot when it did not heed them. The animal, driven on by kicks from the officer's heels, accomplished the journey of thirty miles in safety. On the following night the officer returned as he had gone.
 When Lt. Gilmore, an officer of our navy, was captured by the Filipinos, during an insurrection, he sent news of his whereabouts through the Filipino lines by means of a Spanish prisoner who had been liberated. Naturally all such persons were carefully searched. But the insurgent officer failed to examine the bamboo walking stick of the Spaniard. The end had been opened, the written message inserted and a cork was fitted into the hole again, which also rendered the paper safe from water.—N. Y. Paper.

Springdale St. Commercial School Guttered
 Damage Estimated at More Than \$6,000.
 About 8.30 o'clock last night a resident of Gilbert Street, while looking towards the Springdale Street Commercial School, observed an unusual light inside the building and fearing the school to be on fire made straight for the building and discovered the second flat to be a mass of flame. An alarm was rung in from a box near the school and in very quick time the Central and West End Fire Brigades were on the scene. By this time the fire had gained considerable headway and it was plainly seen that it was impossible to confine the blaze to the one room. Three streams of water were poured into the building, but owing to the construction of the building it was a difficult task to get at the heart of the blaze, which was directly over the furnace room. In addition to the many other difficulties, the fire fighters had to contend with the great volumes of smoke caused by the burning paint and woodwork of the walls. For upwards of two hours the firemen were kept busy. The fast spreading flames, having found their way through the other class rooms and up towards the roof, destroyed all the school fittings, including a large library containing many recent purchases, school books and school records. Fortunately eight typewriters were taken from the building undamaged and an amount of cash collections, etc., was also saved. While the origin of the blaze is still a mystery, it is supposed to have been started by the woodwork near one of the radiators igniting. At 5.30 Principal Butler left the school and shortly after the janitor locked up the building, everything then being in order. The building, which is only half covered by insurance, was but recently constructed at a cost of \$8,000. Over 450 day pupils and a night class of 52 are for a time without class rooms, but we learn they will shortly be housed in another part of the city.

THE LIFE INSURANCE EXAMINATION.
 The life insurance examination is a process of elimination which eliminates everything but the first year's premium. After a man has gone through with one of these examinations and discovers that his physique needs everything but "new window sills and a tar roof, he will return home and begin taking all of the patent medicine that the express companies are allowed to carry.
 The purpose of the Life Insurance Examination is to find out if the insured is liable to last until the company has taken in four times the amount of the policy. To a man of retiring nature, it is an embarrassing and painful process, as he is obliged to tell when, where and why, he was born, the exact age and cause of death of his great-grandfather on his mother's side, and the reason why his ancestors seemed to run to lumbago. He is also obliged to renounce tobacco and liquor in any form until the examination is over. Very few men can get examined for life insurance without calling in a relay of living relatives with good memories or digging the family Bible out of the hall closet.
 There are several ways of taking a Life Insurance Examination, but the most popular is to consult some physician who has a kind heart and a declining practice. Life insurance companies insist that the applicant shall weigh enough to depress a sugar scale, but this difficulty can be overcome by carrying pig iron in both hip pockets and assuming a look of pious innocence. Thousands of men who weigh less than they did when they were nine years old, have found in this way that it is much easier to secure a life insurance policy than it is to keep it going on both feet.
 Life Insurance Examination, but the good thing, for it prevents people from lapsing a policy after one of their vital organs has retired from active pursuits. On that account, it is better to take it when you can get it and hang on with a death grip.
Fresh Irish Hams and Bacon at ELLIS'.
Turkeys, Ducks and Chick at ELLIS'.

Household Notes.
 To clean white statuary coat with starch, let dry, and then remove the starch mixture. The dirt will come with it.
 Prevent a glass jar or bottle from cracking when hot things are put into them, by wrapping a hot cloth around them.
 If the drawn part of linen is worn sew pieces of insertion over the worn drawn work and cut out the drawn work underneath.
 Soak the clothes pins in salt and water before using them in very cold weather. This will prevent them from freezing to the line.
 A tiny bit of dry mustard shaken over boiled codfish is an agreeable change. Sliced hard-boiled eggs should be used around it as a garnish.
 If a tack has been driven far into a floor and is too rusty to get out easily it can be removed more easily if a drop of oil is poured on it.
 If you want hot biscuits for breakfast and do not care to get up very early, mix the dough and cut the biscuits the night before, put them in the refrigerator and in the morning they are ready to pop in the oven.
 When a food is rising in price with unreasonable rapidity it is foolish for the housewife to lay in a large supply, fearing that it will remain at a higher price. Wait and the price will surely come down in a few weeks.
