RECOGNITION.

The care of the teeth is now recog-

nized as a necessity. In fact the large hospitals all over the world examine

the patients' teeth and where it is

possible put them in good condition before attempting a surgical oper-

ation. Experience has shown that the patient has a better chance for re-

covery with a clean healthy mouth than

without it. This ought to convince the most skeptical that care of the teeth is requisite to hearth. oct31,eod,t1
