## Produce and Provisions.

(Trade Review.)

**Codfish.**—The general impression amongst the Trade is that matters are taking on a better aspect in the European markets and that shore fish particularly in Italy shows signs of an upward tendency a condition of affairs which is not to be considered surprising as the shore fishery the past season was not up to the normal. Icelandic fish seems to be taken in preference to our Labrador and commands a better price. The exports for the week were by the Rosalind 98 qts. for Italy, 6,573 for British West Indies, 546 qts. for the United States, as well as 676 lbs. herring, 17 tuns whole oil, and 55 cases lobsters, by the Sachem 328 for Portugal, 3,401 for Spain, 80 for Italy, 3,885 for England, 777 for other parts and 80 tuns Cod oil, 184 tcs. salmon, 105 tuns whole oil, and 170 cases lobsters. The following vessels sailed—"James and Stanley," Lamaline for Lisbon with 1,344 qts. shipped by Estate of S. Harris Ltd. "Lady St. John's," Placencia, 2,200 qts. H. Heber and Sons for Oporto; "David Morris," Ferryland 4,811 qts. Monroe Export Co. Ltd. Oporto; "Astrea," Little Bay Islda. 4,300. Jas. Strong for Malaga; and "Sable Island" 1,493 brls. Scotch Cure Herring and 86 pickled herring for Halifax and the T. S. Gorton, Woods Island for Gloucester, with 1,254 brls. herring from the Bay of Islda, Fishing Co. Some seven vessels are now loading at various points for Europe.

**Cod Liver Oil.**—The market has turned easy as all orders have been filled. The New York market has been unduly depressed owing to a speculator becoming discouraged, and

offering his holding at a considerable decline. The Wholesale Drug Buyers have supplied their requirements for this season, and everything depends now on the production of next season's catch in Norway. They have had two consecutive years with large productions, and it remains to be seen what the result of their next fishery will be. The scientific development is progressing but while prices continue so very low, and the Government blocks business with its "Export Tax" all trade is hampered. The refiners must be encouraged to manufacture larger quantities, and not discouraged by taxation.

**Common Cod Oil.**—There has been no snap to the business. It was reported that a large operator was again buying, and knowing how small the stocks are in this country, was ready to pay an advance for all that is to be had. Something must have happened to change his mind, as there is no material change in the situation.

**Flour.**—During the week liberal consignments of flour were received by various consignees and this has marked the last shipments of the St. Lawrence route. There is no change in the price of flour in the local market which is very firm and the general impression is that there will be no probability of lower prices for some time to come. As a matter of fact railway freights to Halifax and freights by steam to St. John's for the winter season have advanced and this of course offsets the slight decline which had occurred at different shipping centers. Henceforth shipments will be made from New York Boston, and Halifax. During the week the imports were 600 brls. by the "Yankton"; 5,645 by the "Canadian Coaster"; 7,260 by the "Manoa" and 1,720 by the S.S. "Jan," a total of 15,225 barrels.

Prices in the local market vary from \$7.70 to \$8.20 per barrel, wholesale according to quality.

**Pork.**—Conditions in the Pork market are pretty well the same as last week, and the tone is firm with a pretty active market right along. The grade known as Fat Back cannot be procured and orders cannot be filled promptly owing to the drain on the great American packing concerns by the heavy European demand. Not for months to come is there a likelihood of an easement in prices of Pork and at present the outlook is for higher figures in the near future. The quotations locally vary from \$23.50 for Spare Ribs to \$31.50 for the highest goods. This week imports were 500 brls. by the S. S. "Jan".

**Beef.**—The market in Beef is very strong and like pork the demand is pretty good. During the week there was a further advance in prices and the end is by no means yet, as dealers think this commodity will later reach top notch figures. Stocks are extremely hard to procure and but small shipments are being received each week so that it will be difficult if not impossible to meet the demands of the Trade here. Consignments of 665 brls. were landed here during the week 155 brls. by the "Yankton" and 500 by the "Jan." Quotations in the local market vary from \$26.50 to \$22.50 according to grade.

**Sugar.**—The condition of this market during the week is somewhat easier and prices wholesale have shown a slight decline as compared with those prevailing a few weeks ago. Lower prices still for refined are looked for soon and the filling of comparatively heavy orders for Christmas will mean larger consignments of sugar within the coming weeks. Raw sugars are holding their usual strong aspect and few if any consignments of sugar were noted on any of the manifests of the ships entering here the past week. Granulated which stood \$10.25 per barrel, wholesale, in the local market last week, is now quoted at \$10.10 per barrel.

**Tea.**—There is a uniformly active local demand and the tone all round is strong with a prospect of no abatement in price until the late spring, indeed some people in the trade quote they would not be surprised to experience sharp advances in the price later. Similar prices to those quoted last week prevail here and the imports for the week were negligible.

**Hay and Oats.**—Fairly large shipments of Canadian hay were received by the Manoa this week and some 153 bales came by S.S. Canadian Coaster. Henceforth there will be heavy importations from Prince Edward Island to meet the local demand and the price quoted locally is \$35.50 per ton of 2,240 pounds. Heavy consignments of oats were landed here during the week consisting of 22,180 bushels by the Canadian Coaster, 32,208 by the Manoa, 11,830 by the Jan, 494 by the Cecil L. Beck, and 392 by the Vivian Ruth, an aggregate of 67,074 bushels. Black oats (P.E.I.) are quoted at \$3.65; White, (P.E.I.) \$4.45; Mixed \$3.20 per sack.

**The Miscellaneous.**—The Miscellaneous imports noted for the week were 243 packages butter, 421 cheese, 475 oatmeal, 5,181 brls. potatoes, and 88 head cattle.

**Apples.**—From a recent copy of the Montreal Star we take the following extract which confirms our recent article on the quality of the famous O'Kanagan apples. "Canadian apples have taken the leading place in the Imperial Fruit Show in London in competition with the finest apples grown in Old England or any of the Dominions. First Prize in the British Empire Section for the Desert class, which means the finest eating apple grown within the Empire went to the McIntosh Red shown by the Associated Growers of the O'Kanagan Valley with which they win the 250 gold cup and \$20 in cash. The McDonald Agricultural College of Montreal took third prize in the class with the same variety of apple. In view of the long standing prejudice in favor of the English apple the feat of the British Columbia McIntosh Red is all the more impressive."

## Recent Importations of Xmas Goods!

NEW MINCE MEAT (In Glass). LAZENBY'S, MACKENZIE'S, LIBBY'S, CHIVERS. HARTLEY'S PINT JELLY TABLETS—16c. 14-oz. CANS BEST CHICKEN, ESCAMOTTE ANCHOVIES, LEMON CHEESE, LEMON CURD.
