The Great Western will supply rolling stock, and work the line for 70 per cent of the gross earnings, and 20 per cent of the traffic will ings, and 20 per cent of the traffic will be put aside to redeem the Bonds of the W. G. & B. road, which bonds will then belong to the Great Western. This agreement which received the almost unanimous sanction of the Great Western sharcholders in London, will be an advantageous one for the W. G. & B. Company, while it will give to the Great Western the complete control of the line just as if it belonged to that Company.

In view of this we think it is really

B. B. Company, while it will give to the Great Western the complete control of the line just as if it belonged, to the Great Western the complete control of the line just as if it belonged, to the Company.

In view of this we think it is really high time for the Town Council of Guelph to see if some arrangement cannot be made with the Great Western Railway towards securing a Union Station. The time will soon come when it will be impossible to make such an arrangement, if it is not come already. We have time and again urged the importance of this matter on the Council and the ratepayers, we have the whole subject which to us, in view of the important bearing it will have on the prosperity of the town, seems perfectly astonialing and inexplicable. Should the necessary of the town, seems perfectly astonialing and inexplicable. Should the method where the Great Western now is heading and inexplicable. Should the method where the Great Western now is allowing the next to go as it were by default. consideration of Mr. Oliver's motion to fix the salary of the Governor General at \$32,000, instead of £10,000 sterling; and of Sir John A. Macdonald's amendment that, after the strong desire of Her Majesty's Government, expressed in the Duke of Bucking ham's despatch, that the present salary of the Governor General should be maintained, it is inexpedient to make any alteration in the provisions of the British North America Act of 1867, with respect to the amount of such salary.

Mr. Mackenzie moved in amendment, "That it is the undoubted privilege of Parliament to fix and determine the amounts of all salaries and expenditurs chargeable on the public funds of the Bommion, and that the salary of the Governor General should, therefore, be fixed by an Act of this Parliament."

After a long debate Mr. Mackenzie's amendment was carried by 137.

Farmers' Sons.

At the last annual meeting of the New York State Agricultural Society. Gen. Patrick made the following remarks in regard to the growing aversion among farmer's sons to farm work: Only a few of our children are following our footsteps. The old folks are left alone. With failing health and increasing years many, are compelled to sell out the homestead and live in a village, where it is possible to live alone. Our young men are showing a great aversion to honest toil. Often, it they remain on the farm, they are more interested in fast horses than in training steers. Others engage in tri-fling, undignified occupations, such as reling maps, bocks, patent rights, or even clother-pine. They are attracted by genteel ways and habits. At the best, they seek commercial adventures, and through this means, suchea and great.

And finally they declare that no settlement of the questions involved in the passing of the Act of Confederation, either as regards its principle or its details, will be considered as final until after the subject has been submitted for the approval of the people.
