McCormick Binder

A Binder to do successful work must be adapted to the
country where it is to be used

The McCormick binder is especially made to meet the require-
ments in Western Canada. This machine is the result of a great many
years' experience in harvesting fields. It has been improved from
time to time until it is a machine that meets every condition known
to the grain growers of Western Canada.

The McCormick cutter-bar is so constructed that it can be used
with either a smooth or serrated knife.

The McCormick reel is one of the strongest and most effective
ever placed on a binder. It offers a wide range of adjustment and
successfully meets the conditions encountered in any field, whether
the grain is tall short—standing, down, or tangled. There are many
other features and advantages of McCormick binders.

a lecturing tour in Glengarry.

Pickles.

Four pounds tomatoes, one quart
vinegar, one tablespoonful mustard,
one teaspoonful each of cloves, whole
pepper and allspice, two or three
blades of mace, one pound of treacle
and three large onions. Slice the
tomatoes and onions, and sprinkle
them with salt. Let them stand all
right. Next day drain them and boil
them with the other ingredients for
half an hour.

Dress Hints.

Pooped coats have linings of silk
stained like peppermint candy. The
hood turns completely inside out to
show its lining.

Many neutral tones, browns and
tans, are in evidence this season.

Short, puffed sleeves appear on
many dresses.

Awning stripes have become very
popular for sports clothing.

The bride may wear a short veil
and be in the pink of fashion.

Rustic hats are made of coarse,
soft wool.
