SOME of our readers may be anxious to know how James McRae, the young man who accidentally shot himself at the Wallaceton fair a year ago last fall, is getting along. In reference to his condition, we would say that his wounds and sores are healed up and he is pretty rugged and hearty, but his lower parts are still paralyzed. He has no feeling in feet or legs and is unable to move them except with his hands. There is a military doctor in the West who says the bullet can be removed and the patient cured. We believe it is the intention to move him for a trial this fall.

DOMINION DAY at Leamington is to be celebrated in a manner in keeping with the successful demonstration which usually takes place at that town. The programme of amusements is a lengthy and a varied one, consisting of athletic sports, procession, base ball match, bicycle races, horse races and a grand display of fireworks in the evening. The amusements of the day will be sufficient to draw a very large crowd of pleasure seekers, but the main attraction will be the grand display of fireworks in the evening, which will be under the management of Prof. Houbert, himself, and which will without doubt be the finest display ever made in Ontario west of London. The committee are sparing no pains to make the day a grand success in every respect, and all who make July 2 and a holiday should undoubtedly go to Leamington. There will be excursion rates by rail and boat on that day.

A MOST enjoyable time was spent by those who were fortunate enough to be present at the annual picnic of School Section No. 12, Aldborough, which was celebrated last Friday. After ample justice had been done to the

good things usually furnished on such occasions Mr. Stalker was called to the chair, which he filled in his usual happy style. Short and instructive addresses were delivered by Mr. McKillop, B.A., Mr. Montague and others of West Lorne. Messrs. Crane, Campbell and Jackson, of Dutton, furnished the instrumental music which called forth storms of applause, indicating how much they were appreciated by the audience. Messrs. Crane and Jackson gave a few of their comic songs which completely captivated the lovers of music and brought forth roars of laughter. The songs rendered by Mr. A. McMillan, of Dunwich, were a treat to all those who love the songs of Scotia. Too much praise cannot be given to Miss Moir, teacher, and the Misses Coll and others for the management, as no doubt they have the credit of having one of the best picnics ever held in the vicinity. An amusing feature of the affair was the eagerness with which some of the bachelors acted upon a suggestion of the chairman, that it would be a good opportunity for them to improve their time by swinging the ladies and making themselves agreeably useful.

After the elegant dejeuner provided by the hostess had been partaken of the happy couple departed amid showers of rice. They were accompanied to Ridgeway by the wedding party where they took the 3:30 express for Detroit and other western points to spend the honeymoon.

UNITED POWER.

Burdock Blood Bitters unites in one combination remarkable powers as a tonic, blood purifying, system-regulating and cleansing medicine. It has no equal in the power of curing all diseases of the stomach, liver, kidneys bowels and blood.

Ex Senator Harrison, of Indiana, received the nomination for President of the United States at the Republican Convention held in Chicago last week.

Enrich the blood by the use of Milburn's Beef, Iron and Wine, which supplies the necessary blood building material.

The flea beetles which attack cucumber, squash and other similar plants may be kept off by dusting the vines with slacked lime or London purple mixed (one part to twenty) with flour.

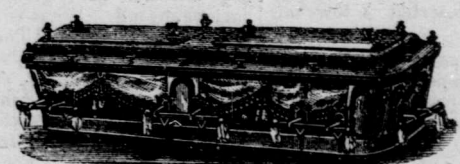

PERFECT HEALTH.

Can only be attained by carefully attending to the laws of nature as expressed in the wants of the system. To do this successfully requires the use of Burdock Blood Bitters occasionally to secure the regulating and strengthening effect of this splendid medicine.
