andled in the House yesterday. He can, owever, blame no one for it but himself. Vhatever little influence he may have had then he entered the House he has comthe eyes of the Opposition as the remember. He has effectually succeeded offing himself out in the few weeks fouse has been in session. The elv lost and he is now discredited as well in the eyes of the Opposition as the Government. He has effectually succeeded the House has been in session. The ridiculous charge he brought against the President of the Council, and which still drags its weary length along, never deserved the prominence gives it in the House by the members of the Opposition, from some members of which better things were expected than to "back up" Mr. Humphreys in his attempt to "get even" with Mr. Dunsmuir. The ignominious ending of the whole affair reflects upon the good sense of the Opposition while it consigns its mover to political degradation in this city and province forever. Comox regrets having placed herself in the false position she occupies in the Legislature. Her people have learned that oily words are no substitute for sterling integrity. A vote of censure would only be the patural

regrets having placed herself in the false position she occupies in the LegilaturaHer people have learned that oily words are no substitute for sterling integrity. A type of cassaure would only be the natural sequence of his conduct.

THE DOMINION ENTIMATES.

THE DOMINION ENTIMATES.

The following is a summary of the Dominion estimates for the year ending sinking fund, \$11,875,381; charges of management, \$185,018; civil government, \$115,004,524; administration of justice, \$856,7301; legilation, \$709,080; aris, agriculture and statistics, \$147,980 immigration, \$116,389; quarantine, \$78,864; pensions and superannustions, \$338,391; mitis, \$1,329,500; railways and canals, (income), \$273,850; public werks (income), \$273,850; public werks (income), \$273,850; public werks (income), \$273,850; public werks (income), \$287,850; public werks (income), \$287,850; mail substities and steament, \$1,500; and substitute for successions and superannustions, \$336,391; mitis, \$1,329, four substitutions, \$41,250; marrise begitals and sick and distressed seamen, \$28,000; substitutes of the successions and superannustions, \$43,500; and substitute for successions of the successions and superannustions, \$43,500; and substitute for successions and superannustions, \$336,391; mitis, \$1,329, four substitutes of the successions and superannustions, \$336,391; mitis, \$1,329, four substitutions, \$41,500, four substitu \$351,627; cutting timber, \$54,900; weights,

remembered in America. An admirer writes in the Province. He would seem to toil early and late in the cause he has at heart. The Canada Gazette says: "There is no feature of recent Canadian progress more striking and more gratifying than the rapid, but at the same time substantial, development which British Columbia is now undergoing. This remarkable development which British Columbia is now undergoing. This remarkable development which British Columbia is now undergoing. This remarkable development which British Columbia is now undergoing. The remarkable development which British Columbia is now undergoing. The remarkable development which British Columbia is now undergoing. The remarkable development which British Columbia is now undergoing. The remarkable development which British Columbia is now undergoing. The remarkable development which British Columbia is now undergoing. The remarkable development which British Columbia is now undergoing. The remarkable development which British Columbia is now undergoing. The remarkable development which British Columbia is now undergoing. The remarkable development which British Columbia is now undergoing. This remarkable development which British Columbia is now undergoing. The remarkable development which British Columbia is now undergoing. The remarkable development which British Columbia is now undergoing. This remarkable development with the value of the Columbia is now undergoing. The remarkable development which British Columbia is now undergoing. This remarkable development without heaving the sale of canned salmon, the sating of which has been startly canned salmon at times generates gases and becomes terribly poisonous. The gas always makes the top of State for the year ending December 31, 1887, has been issued. The report indicates that the total number of letters, petitions and other documents received by the department during the year was 14748, and the total number of of the Canadian Pacific Railway is now 925. A comprehensive and analytical bringing within the range of modern list of revising officers throughout the bringing within the range of modern list of revising officers throughout the enterprise. Already, Mr. Beeton was able to show, the Province is attracting the last session, of the addresses and orthogonal the last session, of the difference of the House bassed in the Commons Tubal Cain, Gentle Annie and Other Claims. population and capital both of the mother ders of the House passed in the Commons land and the United States; and though 109 returns were prepared and 11 of the he did not do so, he might, perhaps, have added that the prominent part which orders of previous sessions were presented orders of work in the various mineral claims. United States enterprise has taken and is last session. United States enterprise has taken and is taking in this present development is a noteworthy instance of British slowness to seize opportunities when they arise and turn them to good account. Still, in spite of this fact, the future is, as Mr. Beeton says, undoubtedly brilliant; and, with him, we leok forward to the time when this "England of the Pacific" will be ranked among the foremost of Great Britanis's possessions. There is much else in increased to twenty inches of solid mineral at a depth of seventy feet on the King William claim. The width of the King William claim. The width of the ore vein at that point is twenty-eight inches.

On the Joshua claim they have sunk one hundred and five feet and drifted north twelve feet. The vein is twenty-four inches wide, all mineral, and showing most satisfactory results.

The Tubal Cain vein has increased to twenty inches of solid mineral at a depth of seventy feet on the King William claim. The width of the ore vein at that point is twenty-eight inches.

On the Joshua claim they have sunk one hundred and five feet and drifted north twelve feet. The vein is twenty-four inches wide, all mineral, and showing inches of solid mineral at a depth of seventy feet on the King William claim. The width of the ore vein at that point is twenty-eight inches. full report of the meeting which appears in the current issue of the official Journal of the Society of Arts. For the present it must suffice to reproduce here the timely reference which Mr. Beeton made to the British Columbia Crofter emigration prosal. He said:

and was admitted to the bar of that province. He is senior member of the firm of Sedgewick, Ross & Sedgewick, former by Sedgewick, Stewart & O'Brien, and is at present city solicitor of Halifax, having succeeded Judge Ritchie in that position.

He is also a governor of Dalhousie Columbia Crofter emigration province. He is also a governor of Dalhousie Columbia Crofter emigration province. He is also a governor of Dalhousie Columbia Crofter emigration province. He is also a governor of Dalhousie Columbia Crofter emigration province. He is senior member of the firm count of water.

The owners of the Star claim on Mineral Hill expect to commence the season's operation's at once.—Inland Sentinel.

British Columbia Crofter emigration proposal. He said:

In this connection I should like to mention that my government have, for some time past, had under their consideration the question of founding Crofter colonies on the coast of the mainland, on the east coast of the mainland on the possible east of the progress of the development.

Q. C., who has been highly complimented family to have 50 or a 100 acrees of cultivable land, and thus continue their old avocations of fashing and farming. As these crofters are in an impoverished condition, it will be necessary for the local government to advance their passage money, and likewise provide food and shelter until they become self-supporting.

Mr. Alszander Begg, the special commission of a succession of fashing and farming. As these crofters are in an impoverished for the successary for the local government to effect this out and prover in the coast, and alternative the provide on the Pacific coast, and successful, law of causing the doubt that the government and the Minister of Carlon and the provided of the provided the fort.
