An Old-Timer's Opinion.

Mr. W. Yielding, one of the oldest residents around Toronto, is one of those who do not believe that water brought from Lake Simcoe will be any improvement upon the supply which we have at present. But he believes that the water which we are receiving has been becoming worse within the past 20 years. Mr. Yielding, who now lives in Seaton-street, has resided in Toronto for 37 years and should know whereof he speaks, "I have," he says, "never seen before the water in the state which it is at present. The improvements, so called, are not so good as they were 30 years ago."

"What do you think about the project of bringing water from Mitton?" not believe that water brought from Lake bringing water from Milton?"

"There should be good enough water from Large Consignments of Large Contario."

Ansesthetics.
The use of the vapor of sulphuric ether for Ansesthetics.

The use of the vapor of sulphuric ether for the purpose of inducing insensibility to pain of surgical operations was first adopted by Dr. Morion of Boston, in 1846.

Chioroform was first used by Dr. Simpson of Edinburg in 1847.

For the last forty years science and skill have been laboriously working with the great object of lessening the suffering and pain often endured by mankind. The grandest success or all these varied and noble researches has been the discovery of that lifegiving remedy and strengthener, Paine's Ceiery Compound. Pain and suffering was, and always will be, more common and intense in what are termed the ordhary life of the surgeon. Paine's Ceiery Compound permanning releases the sufferer, while the aleast the surgeon are only temporary what their after-effects often injurious. The victim suffering trom nervousness, overworked brain, sleeplessness, metancholis, a used-up feeling, morndness and burdened with the pangs of dyspepsia and indigestion, is quickly made to experience new vigor, new strength, strong appetite, fresh lows and a vicanty never before possessed, it thus great compound is tatunuly used. It has restored to the nearth and happiness thousands who once were maguishing and almost heipless; it has the same power to-day.
