of patients after discharge from hos-J. Locke, president of the associa-

n, drew the attention of the minister the economic advantages possible if men discharged from hospital were pensioned for a longer period than at present. Many of the returned men when their pensions were suspended were compelled to go to work while still in a weak condition, and in many cases had breakdowns, which necessitated heir return to hospital, where they would have to be further treated at the Fovernment's expense, he said. Pen sions continued for a longer period

would enable the men properly to regain their health, and thus avoid relapse. Hon. Dr. Beland expressed himself i sympathy with anything which in mature consideration promised to amelior S. ate in any way the sufferings of re-

The delegation asked the Government establishment, and the entire executive to extend the limit of application for uberculosis Veterans' Associa- pensions from date of discharge to a Canada, at present in annual longer period than one year, as is at present the regulation, owing to the, at times, slow development of the disease, and the discussion of matters affecting It was pointed out that the regulations tuberculosis returned men, particularly of the United States governing the matter allowed a lapse of three years be-tween the date of discharge and the by the Legislature, would relieve municdiagnosis of tuberculosis.
