To Professor Holloway.
Sir,-My sister, Miss Jane Tomkinson bad legg in which there were several deep-ly seared and old wounds, delying the skill of some of the most eminent of the menteal faculty, a variety of remodies were also used unsuccessfully; and it sessed to me that there was not any thing capable of mitigating the agonies she endured. At - length, she had recourse to your Ointment and pills, and af er using them for about five weeks, she was completely cured, after all other means had failed to afford her the slightest relief. I have no abjection to these facts being published, if you feel disposed to-make them known.

DEATH'S DOOR!! of Three Rivers, Canada West, dated Ja y 9th, 1854.

To Professor Holloway, Sir,-My wife suffered most severely after the birth of our last child with a bad breast. There were several holes in at, one as large as a wand; all the devices and stratagems tried would not heal them, but assumed an aspect more frightful than before, and hor rible to behold. As a last resource I tried your ointment and pills, which she persevered with for seven weeks, at the expiration of that time her breast was almost well; by continuing with your remedies for two more weeks, she was entirely cured, and we offer you our united thanks for the cure effect

Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their consistions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many emant Physicians have declared the same thing of my Pills, and even more confidently, and are whing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting wherever they exist such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.
