CANADIANS IN THE UNITED STATES.

The dinner of the Canadian Club of Boston was enlivened by the presence of two eminent Canadians, the Hon. John V. Ellis, a prominent member of the Senate of the Dominion, and the Hon. J. W. Longley, attorney-general of Nova Scotia. It is surprising that there are not more associations such as this Canadian Club in the various great centres of population in the northern tier of states running from the Atlantic to the Pacific. One of the speakers at that dinner stated that there were about 1,200,000 people of Canadian birth residing in the United States, or an amount equivalent to more than one-fifth of the entire population of Canada. According to the last census, Boston can lay claim to the largest Canadian population; that is, there are rather more than 50,000 residents in Boston who are of Canadian birth, and of these not quite 3,000 are what are known as French-Canadians. The next highest record is held by Chicago, which has in round numbers 35,000 Canadians resident within its municipal limits, of which about 30,000 are classified as English Canadians. Detroit has 29,000, Lowell 20,000 New York 22,000 Buffalo 17,000 Cambridge 10,000 Rochester 8,000, San Francisco 5,000, St. Louis 2,500, Seattle 4,000, St. Paul and Minneapolis combined 12,000, Manchester 15,000, Woonsocket 9,000, and Worcester 8,000. It will be thus seen that the Canadians are tolerably well scattered through the country, although much nearer the northern than the southern border. If to the Canadian population of Boston was added that resident in the surrounding cities and towns making up the metropolitan district, it would probably total to nearly 100,000; and, what is more, the Canadian population in and about Boston is made up of only a small fraction of what is called French-Canadians.

STEEL CAR WORKS AT NEW GLASGOW.

New Glasgow, April 18—New Glasgow is to have another new industry. The Nova Scotia Steel and Coal Co have decided to manufacture steel cars. At present the demand for these in Canada is enormous. The company expect to build ten cars a day, which will require 150 tons of steel daily.

As the installation of a steel car plant would take considerable time and as there is pressing demand for cars of all kinds the company has practically decided to equip their new shops for the building of the ordinary type of wooden box cars, and thus come on the market with their cars a good deal earlier than they otherwise would, if they waited for the full steel car plant to be put into operation.

Sufficient land in the neighborhood of the Trenton works has been bonded and initial steps are being taken looking to an early beginning.

ISLAND LEGISLATURE PROROGUED.

Charlottetown, P. E. I., April 18—The legislature was prorogued this afternoon. This morning Premier Peters moved a resolution that the house protest against the reduced representation from the Island in the federal parliament. The leader of the opposition supported the resolution, which urges that the sixth member be restored on the basis of the terms of confederation. Both sides of the house were unanimous. The matter will be pressed.

The new floating dock recently launched on the Tyne, England, for the use of the British fleet at Bermuda, claims the distinction of being the longest and heaviest dock so far constructed.

NOVA SCOTIA GAME SOCIETY.

The annual meeting of the above society was held in Halifax and Hon. L. G. Power elected president and Dr. Tobin and Hon. J. W. Longley vice-presidents.

There was a lengthy discussion over the protection of moose, and it was the unanimous opinion of the meeting that the most effective means for the preservation of the game was the prohibiting of the sale of moose meat in our markets.

It was decided to approach the legislature both by petition from the people and by resolutions from the county councils, and ask for the most effective care of the game in the province, Secretary Piers presenting an interesting report dealing with the preservation of game in the various sections of the province, in which he stated that it is gratifying to observe from various reports that moose are undoubtedly on the increase. Snaring is still carried on in remote places but the society's agents by their vigilance are finding out the haunts frequented by the snarers, and are gradually wiping this evil out by destroying the snares. There are but few caribou in the province now. The way in which red deer have propogated is most gratifying. Fur-bearing animals are fairly plentiful, particularly wild cats and skunks. Partridge did not increase much during the three years' close season except in Cape Breton where they are reported to have done well. Crows have increased to an alarming extent in Nova Scotia during the last twenty years.

PEACE PROPOSALS.

The Hague, April 17—From those in touch with Boer leaders here, it appears that the latest secret despatch from South Africa outlines the peace proposals now under discussion in Pretoria. They closely follow the summary given on Saturday last in the Evening News of Edinburgh, with the following additional details:—

The Boers accept a British lord commissioner with a Boer executive, both to be resident at Pretoria.

The country to be divided into districts with British district officers and Boer committee, chosen by polling by the burghers, the veto right to be reserved to the British government. The majority of the British officers must be conversant with the Dutch language.

Johannesburg to be retroceded to the British with a complete British civic organization.

A war indemnity of at least £10,000,000 to be distributed by mixed committees.

Disarmament to occur when the first batch of Boer prisoners is sent back to South Africa.

No war tax to be levied.

Both languages to be recognized in the schools and courts and in official documents.

The expense of garrisons in South Africa to be borne by Great Britain.

The present Boer leaders to be retained in office as far as possible.

SURRENDER OF THE FILIPINOS.

Manila, April 17—General Malavar surrendered unconditionally to Brig.-General J. Franklin Bell, at Lipa, Batangas Province, with the entire insurgent force of the provinces of Laguna and Batangas. General Bell says his (Bell's) influence is sufficient to quell the insurrectionary movements and capture all those in the field who have not yet surrendered, but Malavar has ordered the complete surrender of every insurgent to the nearest American force. General Wheaton, reporting to division headquarters, says that all resistance in his department has ended, and that the surrenders just announced mean that the ports will be opened and that the Filipinos in the detention camps can be allowed to return to their homes in time to plant their crops.

The people of Manila are delighted at the prospect of a resumption of trade with the pacified provinces and are anxious to show their appreciation of the fact that the insurrection is really over. About 3,000 rifles have been received by the American officers in Batangas during the last last four months.

THE MANCHURIAN CONVENTION.

London, April 17—The Manchurian convention has naturally been accepted by the British press as a sequel to the Anglo-Lapanese agreement. While it provides for Russian evacuation by gradual stages, and dispenses with selfish schemes for the monopoly of trade, it leaves the Trans-Asian railway under the control of the power which never abandons ambitious projects, but stands and waits for the convenient time of carrying them out. A temporary halt has been ordered in the Russian march across Asia and during the interval the facilities for a land attack upon China will be gradually increased. Nothing but collective action by the United States, the British Empire and Germany is likely to block the ultimate extension of Russian dominion to the Pacific. The westward movement of Russian ambition has not escaped the attention of Germany, where the Russification of Finland has been regarded as a halfway house on the road to the subjugation of the two Scandanavian kingdoms.

SERIOUS REBELLION IN CHINA.

Hong Kong, April 18—The Rev. Mr. Landis, an American missionary who has arrived here from Nanking, province of Kwang Si, confirms the reports of the seriousness of the rebellion on the southern provinces of China. He says all trade beyond Nanking is paralyzed. The stores there are packed with goods stopped on their way to the interior. The total rebel force numbers about 10,000 well armed men. The rebels are friendly towards foreigners and Christians and allow the imperial post to penetrate into the rebel districts and deliver the mail to foreigners.

NORTHWEST REDISTRIBUTION BILL.

Winnipeg, Man., April 17—Premier Haultain's redistribution bill respecting the legislative assembly of the Northwest territories, provides for an increase in the number of members in the assembly from thirty-one to thirty-five. The four new districts created are Carsdon, Lacombe, Maple Creek and Strathcona, while Prince Albert east and Prince Albert west are changed and in future will be known as Prince Albert and Saskatoon. The boundaries of several of the other constituencies are also altered.

On the completion of the Pacific cable to Fiji, the governor of that island telegraphed to Mr. Chamberlain: 'The people of Fiji desire to convey to King Edward an expression of their loyalty on the occasion of sending this the first telegraphic message from the remotest British dominion beyond the seas.'

It has been suggested that the matter of reduced postage on newspapers and periodicals between Canada and Great Britain is of sufficient importance to form one of the subjects for submission to the colonial conference.

A world's record has been made of a run of 148 miles on the western division of the Chicago, Burlington and Quincy railway, when an average of nearly 100 miles an hour was made by a regular passenger train.

Mr. J. F. Whitson of the Crown Lands department has reported that there is in Algoma, Ontario, a white pine territory covering at least a thousand miles, and which he estimates at at least three billion feet of white pine timber.

The following announcement was recently made in parliament, London: "After two conferences between Lord Kitchener and Lord Milner, and the Boer delegates at Pretoria, Lord Kitchener, while refusing to grant an armistice on military grounds, has agreed to give facilities for the election and meeting of representatives of the various Boer commands to consider the position. The Boer leaders have therefore left Pretoria to carry out this plan."

Empire Liniment is All Right

Read what Mrs. Wile, of Lunenburg Co., says concerning Empire Liniment.

Empire Liniment M'f'g Co.,

Dear Sirs,—I have used your Empire Liniment and it has done wonders for me. I had catarrh of the worst kind and your liniment removed it. I also used your liniment for corns and pains of the soles of my feet (which kept me from going about) and today I walked to Bridgewater, a distance of two miles. You may use this testimonial so that others may be benefited as I have been, and I can truthfully say that there is no liniment on earth like the Empire Liniment.

TEMPLEMAN—BRINTON.—At the residence of the brides' father Mr. Thomas Foster on the afternoon of April 16th by the Rev. E. E. Daley, Thomas W. Templeman of Port Lorne to Lavinia A. Brinton of Lynn.

Let it Alone.

Scott's Emulsion is not a good medicine for fat folks. We have never tried giving it to a real fat person. We don't dare. You see Scott's Emulsion builds new flesh. Fat people don't want it. Strong people don't need it.

But if you are thin Scott's Emulsion is the medicine for you. It doesn't tire you out. There is no strain. The work is all natural and easy. You just take the medicine and that's all there is to it.

The next thing you know you feel better—you eat better—and you weigh more. It is a quiet worker.
