For the purpose of increasing an interest in Natural Science and to procure a representative museum of the Flora, Fauna and Minerals of the Pacific Coast, the proprietors of the above named affiliated institutions make the following liberal offer to collectors in British Columbia. Certificates will be transferable and will be good for six months after September 1st, 1900. Candidates are free to select more than one course of instruction if desired. Each collection may represent more than one kingdom, animal, vegetable, or mineral.

| Per Collection of | 125 mounted specimens, | Tuition Certificate, | Value |
|-------------------|------------------------|----------------------|--------|
| " " " 200 | " | " | \$5.00 |
| " " " 500 | " | " | 10.00 |
| " " " 1000 | " | " | 25.00 |

CONDITIONS:—Plants, flowers, ferns, mosses, etc., to be perfectly dried, mounted preferred. Zoological specimens to be carefully preserved, ready for putting in place. Minerals (not necessarily metals only) to be of convenient size for cabinet. In each and every case, the exact locality from which the specimen was gathered must be given, and each specimen will be representative one of the kind. Two specimens of the same kind will be counted if rare; and the right is reserved in each case to increase the above offer in case the collection is more than ordinarily well selected, and to return collections which cannot be used. Collections will be accepted or refused as a whole and will not be culled without special consent. All charges must be prepaid to Vancouver. This offer will be withdrawn after September 1st, unless otherwise stated.
