

THE CANADIAN POULTRY SUPPLY HOUSE

Largest Supply House in Canada. We can supply anything from a Leg Band to an Incubator.

THE "BEST" INCUBATORS AND BROODERS.

Simple in construction. Self-regulating. Nothing but the best material used. Burns less oil than any other machine on the market. Sure to hatch, if eggs are right. We can't begin to tell you here all the good points in these machines. **SEND FOR OUR POULTRY SUPPLY CATALOGUE.** Prices on application.

Pearce's Tonic Poultry Food

—The best egg producer on the market; will keep your fowls in perfect health and vigor; more eggs, more chicks, more profits. It will save you feed as by its help all the nutriment is taken from the feed by the birds, and nothing is wasted. It will cure Gapes, Worms, Cholera, Roup, etc., thereby lessening your chance of loss and increasing your average of profits. Do not delay (delays are dangerous), but send for it at once, and note the increase in the number of larger eggs, and you will be satisfied. **Box, 35c. postpaid.**

Pearce's Electric Louse Killer

—"Quicker than lightning," "not a louse left alive," and other similar expressions of delight and approval are heard wherever "Electric" is employed: the best insecticide, germicide, disinfectant, and deodorizer known; easily used by means of the improved sprinkler top boxes used to contain it. **Harmless to animals, death to insects and germs. Box 30c. postpaid.**

Mica Crystal Grit

—The Monarch of the poultry yard.—Rock combination of silica, aluminum, iron, magnesium. For Poultry, Pigeons and Birds. The only Grit containing the elements essential to the good health and egg-producing qualities of the feathery tribe. **100 LBS., 90c.**

Crushed Oyster Shells

Pearce's Granulated Bone

—"Peerless" Brand. When you buy 100 lbs. "Peerless" Brand Crushed Oyster Shells, you get 100 lbs. of shell, not 15 or 20 lbs. dust and dirt mixed in. **100 lbs. 75c.**

Poultry raisers should not neglect to use sufficient raw bone. It should be constantly kept in a special place in the pen or apartment of laying hens, as they will consume large quantities of it, and it goes chiefly to egg production. Crushed is the best form in which to place it before adult fowls, and in this shape it keeps fresh longer than when ground into meal. **50 lbs., \$1.50; 100 lbs., \$2.50.**

Philadelphia Caponizing Sets—Poultrymen can double their profits by caponizing their chicks. The operation is very simple, the instructions so full and explicit that any man, woman or child, after a careful reading, will be able to perform the operation. It is highly successful from every point of view. The demand for capons far exceeds the supply, the price per pound being twice as much as for ordinary chicks. The object in caponizing is to largely increase the weight of the fowl, causing them in many cases to grow as large as turkeys and weighing from 10 to 15 lbs.; to make the meat a finer and sweeter flavor, and very juicy and tender. They are much quieter in disposition.—A cock, in chasing around the yard, will run off flesh almost as fast as put on. In the more quiet capon the same amount of food goes to make flesh, bone and profit. Complete with instructions, \$2.50; in velvet lined case, \$2.75. "Complete Guide for Caponizing" with every set.

Green Bone Cutters—Many improvements have been added this year. They now feed automatically, both hands are free to operate, and they cannot clog or run hard. To insure best results get the balance wheel. It is worth far more than the difference in price. These machines are very popular. They require so little strength that an eight-year-old boy or a woman can run them. The iron stand is a great convenience, as it requires neither time nor expense to set it up. The feed motion to a bone cutter is a very important feature. By its peculiar construction, our automatic feed governs the product, and enables the operator to cut fast or slow, fine or coarse. It also regulates the power required, so that while a child can operate it, yet a man's strength

THE NEW WAY

Tested Standard Incubator Thermometer—Mounted on metal graduated base, and distinctly marked high and low. **Price, 75c., postpaid.**

"Champion" Leg Bands.

These, after once adjusted to the fowl's legs, will not come off. They will not canker and sore like brass. They make the legs on these bands. Figures are three-eighths of an inch wide, making large, bold figures, so that they can be read easily. **Doz., 20c.; 25, 35c.; 50, 60c.; 100, \$1.10, postpaid.** State breed when ordering.

The "Peerless" Leg Band.

This band is light and neat. It is made of Aluminum. They stay on, and stay bright. To put band place the link over the pro lengthwise of the band. Then pieces, and the band is on to Prices, postpaid—12 75c.; 100, \$1.25. **State breed when ordering.**

PHILADELPHIA POULTRY MARKER

Do you keep a record of your chicks? The different breeds, hatches, etc., should be kept. There is no better or quicker way than by this marker, as over 200 different marks can be made by punching web between toes, and by your private marks you can secure yourself from the chicken thief. They are well made, with strong spring and cutter, nicely nickle-plated. Made in two sizes. Sent postpaid on receipt of price, 25c each. Mention large or small.

"ECLIPSE" DRINKING FOUNTAIN. This is the regulation fountain in use at the Dominion and Ontario Agricultural Colleges for the past three years. It is made of heavy galvanized iron, which will never rust. Can be filled without taking off the nails. Prof. L. G. Jarvis, of the Ontario Experimental Farm, says: "I consider it the best poultry drinking fountain ever invented." **Price, each 60c., dozen \$6, by freight or express at purchaser's expense; three at one dozen rate.**
