Receipts of tea from 1st January to 1st April:

1:06. 1867. 1.b4. 492,857 Val. \$151,095 1.149 956,031 \$201,994 Stocks of ten on 1st April, 1867:

J.bs.: 777.156 Val.: \$277.896

Tonacco -The market is very dall; but holders are sanguine that trade will speedily revive, especially as recent sales have been only of inferior lots, and merchants consequently will require to come into the market for desirable stocks. Prices are fully maintained.

WINES AND LIQUORS - The market is quiet of all imported, and, we need not look for any activity till the opening of the spring trade. Higherines. Montreal is active at \$1.45 to \$1.50; and U.C. \$1.49

THE HARDWARE TRADE.

HE business of the past week has shewn a little more activity, but the increase in trade has not been very marked. A few buyers have been in the market, but have not purchased very extensively. In heavy goods, the assortment is very deficient, and will cut tinue so until the arrival of the spring fleet. Outward freights are reported as very high, 25s, from Glasgow, in consequence of which it is not likely there will be much, if any decline in prices here, even when the market becomes better assorted than it is at present For shilf goods there is a fairly active demand, with a sufficiently well assorted stock to meet the wants of buyers until after the opening of navigation.

THE LEATHER TRADE.

Hua & Richardson. Seymour, t. E. Seymour, M. H. Shaw F. & Bros. Smyth & Ed "inson.

WE have to report a fair average trade for the week, with local as well as out of town buyers, so that the receipts have not been much if any in exces of sales.

SPANISH Sole.-Receipts have been limited and sales equally so. Stocks are light and prices weak,bat any considerable demand would produce firmness. SLAUGHTER Sole .- Very little is coming forward,

but the want of stock is not perceptibly telt, as there ieno particular demand HARNESS .- The scarcity of the past few weeks con-

times, with little or no stock in first Lands, and extieme prices are asked for anything at all desirable. WAXED UPPER.-We learn that importations are s'ill being made from the United States, owing to the

light receipts from the tanneries of the country. The Sales making, apart from imported stock, are necessanly limited.

BUFF AND PERBLED .- Choice makes of both classes are in fair request, but more difficulty is experienced in placing common stock, which is becoming less and ies destrable

PATENT AND ENAMELLED - Stocks are light, with an improved demand for Patent, and prices continue sicadr.

CALF Shing.-There is no good stock in market. Some inquiry exists and desirable stock could be placed at fair prices.

Splits - Are in good demand, with a somewhat letter sapply

letter apply
Simple states and the receipts have improved Sales have ten tair, at about 30c for Russets
Hinds - The stock recently received has been prophly marketed at from 91c to 92c for imported area salted, at which, with preset prices of leather, the margin for tanners is small
Wook - Recent Sales have cleared out temporarily the stock of pulled, but from the winter's accumulation of pelts, the market will be moderately supplied sherily. There is no improvement in prices, nor any actual demand. sherily. Then active demand.

THE BOOT AND SHOE TRADE.

Acre, Willard & Co. | Linton & Cooper. Haster, Parij & Johnson. | North & Cockrane Smyth & Edmirson.

FRIY few buyers have as yet made their appearance in this market, and though travellers send is some orders, trade is at the present not very active. Manufacturers, however, look forward to a considerable increase in business previous to the opening of natigation. Prices are without noteworthy change higher.

MONTREAL PRODUCE MARKET.

Akin & Kirk patrick.
Came ren & Ross.
Tawling, Middleton & Co.
Levening, Thomas & Co.
Rickwood, Livingstone & Co.
Seymont, G. E.
Sinclatr Jack & Co.

LOUR opened dull early in the week, with a restricted and retail demand from dealers to supply I's tricted and retail demand from dealers to supply only their most pressing wants, but within the last day or two more activity has been manifested, and a further advance in prices has been established in Superfine, which has ranged from \$6 up to \$8 50, according to quality, brand, Sec.; a few sales of very favorite baker's brands bringing exceptional prices. City brands have been sold in quantity at about \$8.20; other grades are dull and have not participated to any great extent either in the activity or in the advance, especially Fancies and Extra, which are still very dull and lattle wanted. Bags are scarce, and in good demand for best strong qualities at \$3.90 to \$4.05; good and ordinary is not saleable, even at a considerable reduction.

mand for best strong qualities at 23.90 to 14.05; good and ordinary is not saleable, even at a considerable reduction.

RYE FLOUR Has participated in the advancing tendency, and sales have been made at \$5.25 to \$5.30.

OATMEAL—Is also firm and steady at full rates.

WHEAT—No sales; Coarse grains are quiet and quotations mostly nominal.

Poins —With more demand, consequent upon the near approach of ravigation, all grades have improved. Mers has been sold at \$19.60, and an advance is now demanded. Holders are also asking higher rates for the other grades, and sales to some extent have been made of Primo Mess at \$14, and Prime at \$10.9 cts.; but there is but little doing. Culmeats—No transactions to note.

BUTTEL—A few sales have been made at 10 to 11c., at which there are still buyers; but any advance on that rate is reluctantly paid, and only for selected harcels. Arrivals are not excessive, and it is probable that, unless receipts greatly increase, al on hand will be needed for the spring trade.

SEEDS—Receipts of Timethy had lately been considerably in excess of the demand and prices have consequently declined,—market closing very dull. Clover—1s still scarce and wanted.

ASIGN—Pos have declined both in Britain and here, and now range from \$5.70 to \$5.75. Pearls—Are very scarce, and actively competed for at about \$8.

HONTREAL CATTLE MARKET.

MONTECAL CATTLE MAKAET.

Extra quality Cattle, none; First quality of Cattle, none; second and third quality, \$750 to \$800; Milch Cows, \$24 (0 to \$20 00; Extra \$25 (0 to \$45 00 Sheep, \$3 00 to \$5.00; Extra, \$8.00 to \$10.00. Lambs, \$3.00 to \$4 00. Hogs, live weight, \$5.00; Dessed, \$5.50 to \$6.00 silver. Hides, inspected and trimmed, 9c. per lb. Pelts, \$1 to \$1 50 each. Tallow, \$c. per lb.

SHEET -Extra includes Cossels, and when those of an inferior quality are thrown out.

an inferior quality are thrown out.

REMARKS.

CATTLE—The market opened dull, but as the foremen advanced trade became rather more active, at last week's rates. The quality of Cattle at market was about the same as last week,—a few extra ones, of which some were sold on commession to the leading butchers, whilst others, although sold to the same butchers, whilst others, although sold to the same Cattle were brought in by Ratchelder Brothers from Cattle were brought in by Ratchelder Brothers from Cattle were brought in by Ratchelder Brothers from Cattle were driven from Brighton.

SHEEP—The quality of the stock at market as a whole, was rather better than last week: there were not so many of the ordinary grades. The market was firm at last week's rates, and some lots sold a triffe higher.
