TORONTO WHOLESALE MARKETS.

OFFICE RUBAL CANADIAN, Toronto, Sept. 80th, 1882.

The provision dealers find prices firmer since the recovery in the Chicago market, but grain merchants find it difficult to get prices established. Old grain is about ex-hausted, and the abundant harvests here and in the States point to low prices for new.

PROVISIONS.—The Chicago market has almost entirely recovered from the bad break in prices last week, Mess Pork being now quoted \$21.25, and Lard 12 1c. This is an advance of \$2 per bbl. on pork and 1c. per lb. on lard. This has stiffened holders' feelings here, and full prices are asked for the small stocks which remain on hand. There has been a fair jobbing trade, with sales of one or two car loads of long clear bacon. There is a little Mess Bufin market, which is held at \$15 to \$16. The dulness in Butter continues, the only demand being from the city trade, which requires a finer quality than most commission men can offer. Cheese is still dull and weak; factorymen now offer August make at 11c., but shippers hold off. Evaporated Apples. None in market; a few dried are selling within our range. Eggrare temporarily scarce, and are held at 18c. firm, some asking 19c. Hops, 50c. to 55c., and firm. It is generally conceded that the crop is a short one, and holders as well as growers have got their ideas up high, the latter talking of 50c. This price would be paid by brewers for No. I new—there are no old in market—but if they go any higher tieir use will be restricted, while barley and other materials will come into play. Dressed Hogs, price itregular, say from \$9 to \$10.

Respecting hog-packing in the United States, the Cincinnati Price Current of the PROVISIONS .- The Chicago market has

Respecting hog-packing in the United States, the Cincinnati Price Current of the 14th inst. says that reports of light supplies of old stock continue to come from all points east of the Mississippi. The number of hogs packed at Chicago from 1st March to 13th September this year was only 1,434,000, as compared with 2,100,000 in same time last year. There is a decline, too, at every other rount named and the total pack is 2,500. point named; and the total pack is 2,570,000 hogs, against 3,545,000 last year—a decrease of 975,000, or 27 per cent.

FLOUR AND MRAL.—There is very little to report. The only kind of flour moving is Superior Extra, of which there have been sales at \$5.20 for old; the new of this grade would not bring over \$5. Extra is held at \$5.10, but other grades are nominal. Oatmal continues firm at even higher price, being scarce; the absence of transactions is the result of want of stock. Bran we quote at \$12.

GRAIN.—The stocks of grain at this point are very low, the total being but 37,611 bushels in store, against 56,900 bushels last week and 138,783 on corresponding date last

Western American markets are steady, but with weaker feeling. There have been sales here of old Wheat, both Spring and Fall, at our quotations, and more would be taken if it could be had, but transactions are limited by the slender stocks as given in above table. St to \$1.05 has been paid, we understand, for new White wheat, but new Spring has not begun to move. Barley—No movement can be reported yet, but nominal prices are about 70c. for No. 2 Extra. Oats are wanted this week, and are quoted 1c. to 2c. higher, with almost none to English advices point to lower prices; Beer-Extra. Oats are wanted this week, and are quoted 1c. to 2c higher, with almost none to be had. A quantity intended to be sent early in the month was stopped by the drop in prices ten days ago. Peas are likewise scarce, and consequently in demand. There is nothing stirring in either Corns or Ryc.

HIDES AND SKINS Prices analtered from those of last week, except that sheepskins are advanced 5c. The movement in hides conadvanced 5c. T times moderate.
