

IT is the intention to have a Canadian representation at the INTERNATIONAL EXHIBITION at Antwerp, commencing 10 May, 1886, and also at the C. L. A. and I. L. A. EXHIBITION in London in 1887.

The Government will defray the cost of freight in conveying Canadian Exhibits to Antwerp, and from Antwerp to London, and also of returning them to Canada in the event of their not being sold.

All Exhibits for Antwerp should be ready for shipment no later than the first week in March next.

These Exhibitions, it is believed, will afford favourable opportunity for making known the natural capabilities, and manufacturing and industrial progress of the Dominion.

Circulars and forms containing more particular information may be obtained by letter (post free) addressed to the Department of Agriculture, Ottawa.

\$1,000 REWARD FOR ITS SUPERIOR  
Washing made light

ness which no other article of washing can  
produce. No scrubbing required—no trouble to  
launder the fabric. A few turns and all can do  
the washing as well as an older person. To  
place it in every household the price has been  
reduced to \$1.00 and it is found satisfactory,  
nearly reduced within the last month from date

See what the Doctor says: "From personal  
examination of the washer and experience in its use we recommend it as a safe, sensible,  
scientific and successful machine, which  
assures the washerman's success. The price  
fully justifies its worth to all. It is a

### OPINIONS OF THE PRESS AND PEOPLE:

I like the RURAL CANADIAN, it is the best agricultural Magazine published in Canada. U. N. C. 1884.

The paper in the RURAL CANADIAN is worth the year's subscription. Truly Country-wise. It contains a larger variety of agricultural information than any similar publication in the U. S. or in Europe.

The best paper in Canada is the RURAL CANADIAN. — *Advertiser's News.*

It will compare favourably with the best American journals of its class. — *Carrie's Journal.*
